Town of Londonderry, New Hampshire

2000 ANNUAL REPORT

In Memorium

We note the passing in December, 2000 of Richard "Richie"Moore. Mr. Moore, a lifelong resident of the Town and proprietor of Moore's Trucking and Excavation, who served as Londonderry's last elected Road Agent from 1956 - 1978. Upon his retirement in 1978, he named Londonderry's Citizen of the Year. He was a member of the American Legion Post 27 of Londonderry and a U.S. Navy World War II veteran. Richie's service to this community and our country is gratefully remembered, and it is to his memory that this annual report is dedicated.

COMMUNITY INTEREST FORM 136

Town of Londonderry, N.H.

Proposed FY 2001/02 Warrant

~~~~ This page intentionally left blank ~~~

To the inhabitants of Londonderry in the County of Rockingham in said State qualified to vote in Town Affairs:

Voters are hereby notified to meet at the Londonderry High School Gymnasium in Londonderry on Tuesday the thirteenth (13th) day of March, 2001, at seven o'clock in the morning to choose all necessary Town Officers for the ensuing year, and to act upon bond and note articles, together with an amendment to the Town Charter, all by official ballot, the polls to be open at seven o'clock in the morning and to close not earlier than eight o'clock in the evening.

Voters are further notified to meet at the Londonderry High School on Saturday, March 17, 2001, at nine o'clock in the morning to discuss, amend and act upon articles, the proposed Fiscal Year 2001/02 budget and all other matters to come before the meeting.

ARTICLE NO. 1 ***[ELECTION OF OFFICERS]***

To choose all necessary Town Officers for the ensuing year, or until another is chosen or appointed and qualified.

ARTICLE NO. 2 ***[CONSTRUCTION OF RECREATION FIELDS AT WEST ROAD FACILITY]***

To see if the Town will vote to raise and appropriate SIX HUNDRED FIFTY THOUSAND DOLLARS ($650,000) for the purpose of constructing recreational fields at West Road.

Said sum is to be raised by the issuance of serial bonds or notes not to exceed SIX HUNDRED FIFTY THOUSAND DOLLARS ($650,000) under and in compliance with the provisions of the Municipal Finance Act (NH Revised Statutes Annotated Chapter 33) and to authorize the Town Council to issue and negotiate such bonds or notes, to determine the rate(s) of interest thereon and to take such other actions as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interest of the Town of Londonderry, and to authorize the Town Council to accept any funds from the State of New Hampshire, the Federal Government, and private sources, as may become available, and pass any vote relating thereto.

(If passed, this article will have a tax impact of $0.01 in FY 01/02, $0.04 in FY 02/03 and $0.04 in FY 03/04) [1].

This article is supported by:
Town Council - (Yes 4-0-0) ***Budget Committee - (Yes 5-0-0)***
[1] Projections are based upon current assessed values.

ARTICLE NO. 3 ***[ARCHITECTURAL FEES FOR POLICE FACILITY]***

To see if the Town will vote to raise and appropriate FOUR HUNDRED SIXTY THOUSAND DOLLARS ($460,000) for the purpose of funding architectural and engineering services for a new police facility.

Said sum is to be raised by the issuance of serial bonds or notes not to exceed FOUR HUNDRED SIXTY THOUSAND DOLLARS ($460,000) under and in compliance with the provisions of the Municipal Finance Act (NH Revised Statutes Annotated Chapter 33) and to authorize the Town Council to issue and negotiate such bonds or notes, to determine the rate(s) of interest thereon and to take such other actions as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interest of the Town of Londonderry, and to authorize the Town Council to accept any funds from the State of New Hampshire, the Federal Government, and private sources, as may become available, and pass any vote relating thereto.

(If passed, this article will have a tax impact of $0.01 in FY 01/02, $0.04 in FY 02/03 and $0.04 in FY 03/04) [1].

This article is supported by:
Town Council - (Yes 4-0-0) ***Budget Committee - (Yes 5-0-0)***
[1] Projections are based upon current assessed values.

ARTICLE NO. 4 ***[ACQUISITION OF LAND FOR SOUTH FIRE STATION]***

To see if the Town will vote to raise and appropriate FOUR HUNDRED THOUSAND DOLLARS ($400,000) for the purpose of acquiring land for a new South Fire Station.

Said sum is to be raised by the issuance of serial bonds or notes not to exceed FOUR HUNDRED THOUSAND DOLLARS ($400,000) under and in compliance with the provisions of the Municipal Finance Act (NH Revised Statutes Annotated Chapter 33) and to authorize the Town Council to issue and negotiate such bonds or notes, to determine the rate(s) of interest thereon and to take such other actions as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interest of the Town of Londonderry, and to authorize the Town Council to accept any funds from the State of New Hampshire, the Federal Government, and private sources, as may become available, and pass any vote relating thereto.

(If passed, this article will have a tax impact of $0.01 in FY 01/02, $0.03 in FY 02/03 and $0.02 in FY 03/04) [1].

This article is supported by:
Town Council - (Yes 4-0-0) ***Budget Committee - (No 3-2-0)***
[1] Projections are based upon current assessed values.

ARTICLE NO. 5 ***[FISCAL YEAR 2001-2002 TOWN OPERATING BUDGET]***

To raise such sums of money and make appropriations of the same as may be necessary to defray Town charges, exclusive of warrant articles and increases resulting from collective bargaining agreements, for the ensuing fiscal year, July 1, 2001 through June 30, 2002.

(This article, if passed will have a tax impact of $5.83 in FY 01/02)[1].

Town Council - ($ 17,722,811 -Vote: 5-0-0) ***Budget Committee - ($ 17,722,811 - Vote: 5-0-0)***
[1] Projections are based upon current assessed values.

ARTICLE NO. 6 ***[APPROPRIATE FUNDS TO CAPITAL RESERVE FUNDS TO REPLACE AMBULANCES, HIGHWAY HEAVY EQUIPMENT, FIRE TRUCKS AND HIGHWAY TRUCKS]***

To see if the Town will vote to raise and appropriate the sums set forth below to be placed in capital reserve funds already established, and to authorize the Town Council to act as agents to expend said funds.

Article 7 - 1994	Ambulances	$23,143	Tax Impact: $0.01 [1]
Article 7 - 1995	Highway Trucks	$50,000	Tax Impact: $0.03 [1]
Article 6 - 1994	Highway Heavy Equipment	$24,250	Tax Impact: $0.01 [1]
Article 11 -1995	Fire Trucks	$74,000	Tax Impact: $0.05 [1]

This article is supported by:
Town Council - (Yes 4-0-0) ***Budget Committee - (Yes 5-0-0)***
[1] Projections are based upon current assessed values.

ARTICLE NO. 7 ***[RAISE AND APPROPRIATE FUNDS for AFSCME Local 3657 CONTRACT AGREEMENT]***

To see if the Town will vote to approve the cost items included in the collective bargaining agreement reached between the Town of Londonderry and the American Federation of State County and Municipal Employees (AFSCME), Local 3657, which calls for the following increases in salaries and benefits:

Year	Estimated Increase	Tax Impact
FY 02	$ 186,005	$0.12
FY 03	$ 141,433	$0.09
FY 04	$ 88,959	$0.06

and further to raise and appropriate the sum of $186,005 for the 2001/02 fiscal year, such sum representing the additional cost attributable to the increase in salaries and benefits over those of the appropriation at the current staffing levels paid in the prior fiscal year.[1]

This article is supported by:
Town Council - (Yes 4-0-0) ***Budget Committee - (Yes 5-0-0)***
[1] Projections are based upon current assessed values.

ARTICLE NO. 8 ***[VALLEY CEMETERY STONE REPAIR AND RESTORATION] - By Petitioners***

To see if the Town will vote to raise and appropriate the sum of SIXTY THOUSAND DOLLARS ($60,000) for the purpose of cemetery stone repair and restoration to Valley Cemetery, located on Pillsbury Road.

(This article, if passed will have a tax impact of $0.04 in FY 01/02)[1].

This article is supported by:
Town Council - (No 4-0-0) ***Budget Committee - (Yes 3-2-0)***
[1] Projections are based upon current assessed values.

ARTICLE NO. 9 ***[ENVIRONMENTAL ASSESSMENT] - By Petitioners***

To see if the Town will vote to raise and appropriate the sum of SEVEN THOUSAND FIVE HUNDRED DOLLARS ($7,500) for the purpose of preparing a scope of work and cost estimate in preparation for an environmental baseline study to determine the impacts on public health and the environment in Londonderry due to industrial pollutants from such facilities as, including but not limited to, the AES Granite Ridge electric generating plant and the Manchester airport, or do or act anything thereon.

(This article, if passed will have a tax impact of $0.005 in FY 01/02)[1].

This article is supported by:
Town Council - (Yes 4-0-0) ***Budget Committee - (No 3-2-0)***
[1] Projections are based upon current assessed values.

ARTICLE NO. 10 ***[FEASIBILITY STUDY FOR COMMUNITY PERFORMING ARTS CENTER] - By Petitioners***

To see if the Town will vote to raise and appropriate the sum of TWENTY FIVE THOUSAND DOLLARS ($25,000) for the purpose of studying the feasibility of constructing a community performing arts center, and for establishing an account to receive any funds which may be contributed by private enterprises to assist in construction of said performing arts center.

(This article, if passed will have a tax impact of $0.02 in FY 01/02)[1].

This article is supported by:
Town Council - (No 4-0-0) ***Budget Committee - (Yes 4-1-0)***
[1] Projections are based upon current assessed values.

ARTICLE NO. 11 ***[OPEN SPACE PRESERVATION] - By Petitioners***

To see if the Town will vote to raise and appropriate the sum of THREE HUNDRED THOUSAND ($300,000) for the Preservation of open space and/or agricultural land. Said sum is to be placed in the Conservation Fund to be expended under the provisions of RSA 36A:5.

(This article, if passed will have a tax impact of $0.20 in FY 01/02)[1].

This article is supported by:
Town Council - (Split 2-2-0) ***Budget Committee - (Yes 5-0-0)***
[1] Projections are based upon current assessed values.

ARTICLE NO. 12 ***[ARCHITECTURAL AND ENGINEERING FEES FOR THE DESIGN OF A POLICE STATION] - By Petitioners***

To see if the Town will vote to raise and appropriate the sum of FOUR HUNDRED SIXTY THOUSAND DOLLARS ($460,000) for the purpose of paying for the architectural and engineering fees for the design of a police station.

(This article, if passed will have a tax impact of $0.30 in FY 01/02)[1].

This article is supported by:
Town Council - (No 4-0-0) ***Budget Committee - (Position given at Town Meeting)***
[1] Projections are based upon current assessed values.

ARTICLE NO. 13 ***[FUND CONSTRUCTION OF RECREATION FIELDS AT WEST ROAD FACILITY] - By Petitioners***

To see if the Town will vote to raise and appropriate the sum of FIVE HUNDRED THOUSAND DOLLARS ($500,000) for the purpose of funding the construction of recreation fields at the West Road Facility.

(This article, if passed will have a tax impact of $0.33 in FY 01/02)[1].

This article is supported by:
Town Council - (No 4-0-0) ***Budget Committee - (Position given at Town Meeting)***
[1] Projections are based upon current assessed values.

3.4 - Vacancies

A. Vacancies occurring in the office of Councilor at any time shall be filled, by appointment, until the next regular election, by the Council at its next regular meeting by majority vote of the Councilors, provided, however, that, if the vacancy occurs fewer than ninety (90) days prior to the next regular election, the vacancy shall not be filled by appointment, but shall be filled at the next regular election.

Yes *2,892
No 1,238

FOR ARTICLE NO. 2 (MAMMOTH ROAD SEWER)

To see if the Town will vote to raise and appropriate FOUR MILLION TWO HUNDRED THOUSAND DOLLARS ($4,200,000) for the purpose of constructing the Mammoth Road Sewer project or anything pertaining thereto.

Said sum is to be raised by the issuance of serial bonds or notes not to exceed TWO MILLION FOUR HUNDRED THOUSAND DOLLARS ($2,400,000) under and in compliance with the provisions of the Municipal Finance Act (NH Revised Statutes Annotated Chapter 33) and to authorize the Town Council to issue and negotiate such bonds or notes, to determine the rate(s) of interest thereon and to take such other actions as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interest of the Town of Londonderry, and to authorize the Town Council to accept any funds from the State of New Hampshire, the Federal Government, and private sources, as may become available, and pass any vote relating thereto: further, to appropriate the sum of ONE MILLION EIGHT HUNDRED THOUSAND DOLLARS ($1,800,000) from Fund Balance.

Yes 3,117
No 1,306

FOR ARTICLE NO. 3 (ROAD RE-CONSTRUCTION PROJECT)

To see if the Town will vote to raise and appropriate FIVE MILLION DOLLARS ($5,000,000) for the purpose of funding various road re-construction projects as identified by the Director of Public Works utilizing the town's Roadway Management Program or anything pertaining thereto.

Said sum is to be raised by the issuance of serial bonds or notes not to exceed FIVE MILLION DOLLARS ($5,000,000) under and in compliance with the provisions of the Municipal Finance Act (NH Revised Statutes Annotated Chapter 33) and to authorize the Town Council to issue and negotiate such bonds or notes, to determine the rate(s) of interest thereon and to take such actions as maybe necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interest of the Town of Londonderry, and to authorize the Town Council to accept and funds from the State of New Hampshire, the Federal Government, and private sources, as may become available, and pass any vote relating thereto.

Yes 2,593
No 1,773

Respectfully submitted,

Joan M. Savina

Joan M. Savina
Town Clerk/Tax Collector
Londonderry, NH

The Annual Town Meeting, budgetary/deliberative session, Saturday, March 18, 2000, was called to order at 9:05 AM at the Londonderry High School Gymnasium, Londonderry, New Hampshire by Moderator John Michels.

Elizabeth Renaud sang the National Anthem. after the Pledge of Allegiance was completed.

MEMBERS OF THE MEETING PANEL

Moderator ..... John Michels
Asst. Moderator ..... Robert LeBreaux
Asst. Moderator ..... Cynthia Rice-Conley

Panel Members:

Daniel J. Vecchione ..... Chairman - Town Council
Larry B. O'Neill ..... V. Chairman - Town Council
Andrew Greco ..... Councilor
Mark Oswald ..... Councilor
Kenneth Sutherland ..... Councilor
Richard M. Plante ..... Town Manager
Peter J. Curro ..... Finance Director
David Connell ..... Town Counsel
Joan M. Savina ..... Town Clerk/Tax Collector
Victoria H. Venuti ..... Stenographer

OPENING REMARKS

Moderator John Michels introduced the panel members on the stage and the non-voters present, along with Town Employees : Public Works Director Janusz Czyzowski, Town Engineer Dan Ouellet, Assessor Karen Marchant, Building Inspector Jim Smith, Fire Chief Alan Sypek, Police Chief Joseph Ryan, Recreation Director Arthur Psaledas, Adm. Services Director Troy Brown, Cable Coordinator Dottie Grover, Att. David Connell and Stenographer Victoria H. Venuti, also, members of the press and other non residents who would be either assisting in the presentation of Warrant Articles information or are Malloy Sound, Inc. workers. He asked the meeting if there were any challenges to those non voters present; hearing none, continued with the meeting.

Moderator Michels reviewed the fire evacuation procedures, indicating which groups of people should use which doors. He requested anyone with a cellular telephone to not use it in the building as it interferes with the video equipment. He requested all newly-elected town officers to remain after the meeting so that he may swear them into office.

V. Chairman O'Neill made presentations of a pen and pencil set to Chairman Daniel J. Vecchione, who was replaced in the elections held on March 14, 2000. He thanked him for his service, and while Chairman Vecchione opened his gifts, noted that the Council has a history of giving clocks as gifts, and one evening's presentation turned interesting when the alarm on one of the wrapped gifts went off.

OPENING REMARKS (Cont'd)

Chairman Vecchione thanked everyone for their participation in the elections on Tuesday and for their votes for him. He added that he would like to just take a rest for now after having served the community for over nine years as either Selectman or Councilor, and a total of fourteen years on various boards and committees. He offered congratulations to those elected adding that he will still be around to offer help whenever needed.

Moderator Michels explained the rules of the meeting pursuant to RSA 40 and the Londonderry Town Charter. He stated that all voters will be required to show their voter cards in order to enter the meeting and that, along with the coupon page of ballots, should remain with each person at all times. If a voter should leave before the meeting ends, he requested that all material be taken home. All warrant articles will be moved, seconded and open to discussion. No more than two amendments will be allowed on the floor at the same time. All amendments must be forwarded to the Moderator in writing; there is paper, pencils and assistance available. Residents will only be recognized when standing at one of the microphones and must give their full name for the record. Residents must address the article only; no personal comments or speeches will be entertained. The Moderator will attempt to recognize everyone at the microphones at least once before recognizing a speaker for a second time.

A motion to *move the question* requires a second, is not debatable, and requires a 2/3 majority. If passed, discussion ends on the main motion or amendment previously under discussion and a vote is then taken on that motion or amendment. A *motion to table* requires a second, is not debatable, and requires a 2/3 majority vote. If passed, discussion ends on the main motion or amendment previously under discussion. No further action is taken on that motion or amendment and the meeting proceeds with the next order of business. If an article is tabled, it will not come off the table at this meeting. In accordance with RSA 40:10, a *motion to reconsider* or *restrict reconsideration* must be made immediately after the results of the vote on a financially substantive or otherwise meaningful article is known. Either motion is debatable; if there is a vote in favor of reconsideration, the article will not be discussed for at least seven days hence. If a secret ballot is requested on any article, the Moderator will determine which ballot sheet will be used for that particular question. He noted that the blue sheets distributed today with ballots A - H were to be used. Ballots would be marked and placed in boxes as distributed by the clerks. He noted that there is to be no smoking in the building, and finally, if anyone is new at the procedures of Town Meeting, the clerks will be happy to assist with any questions.

Moderator Michels then introduced Town Manager Richard M. Plante, who gave the ***Annual State of the Town*** address.

Mr. Plante stated that his address will encompass where the Town has been over the last year and where it hopes to go into the year 2000 and in ensuing years. He reported that the Open Space Program is moving along as planned, with the final acquisition of Moose Hill Orchards anticipated to occur this July. He reported that the Conservation Commission has also been diligent in picking up properties to either add to the Musquash Conservation area or to the list of properties under their purvue.

The Exit 4A project is moving forward with a final public hearing anticipated sometime this summer. The Liberty Drive Extension project which will reconfigure the interchange to provide tractor trailer access directly

OPENING REMARKS (Cont'd)

to Rte. 28 and eliminate the use of Auburn Road is also underway. At Rte. 102 and Mammoth Road, traffic signals have been installed to eliminate the hazard of a left hand turn at that intersection. The State has undertaken a study of the Bartley Hill Road/Stonehenge/Litchfield Road interchange to make it safer.

With regard to the growth at Manchester Airport, Mr. Plante stated that there are issues that will impact Londonderry such as the State's projected widening of Interstate Rte. 93. The airport access road was controversial several years ago because the State proposed coming in from the F.E. Everett Turnpike all the way through Londonderry to Interstate Rte. 93 at Exit 5. The Town chose not to support the proposal for the easterly leg of the project; but the State is moving forward with the project and have guaranteed the Town two points of access. One of them is at South Perimeter Road, the other is at Pettengill Road; however the Department will not allow access to a Federally funded highway. We need to develop a network of roads within that area that is acceptable to the Town and the Department that will interface with that access road. The airport is looking to relocate the entrance road west of airport drive and moving it several hundred feet southerly replacing the St. Francis of Assisi Church in that location. The extension of runway 17-35 will close a portion of South Perimeter Road which will pose the issue of Londonderry's access to the airport for emergency vehicles. It is proposed to extend Industrial Drive to Pettengill and connect to Harvey Road; they've also proposed to relocate the Pettengill Cemetery because the roadway needs to be 15' lower than the runway.

The Nutfield Community YMCA is up and operating at the old Art Gallery Building on Rockingham Road with programs from small tots to the elderly. There are ambitious plans for expansion and people need to get involved in that work to insure its success.

The Lamont Labs site has been cleaned up and is being prepared for a prospective buyer. The Auburn Road site has been an issue for many years at Town Meeting; however, this past Friday, March 10, 2000 the judge in the United States District Court in Providence, RI signed a settlement agreement that has taken the Town three and half years to negotiate. That settlement agreement puts finality to Auburn Road and is the source of the $1.8M anticipated to underwrite the Mammoth Road Sewer Project passed by the first session of Town Meeting by ballot on Tuesday, March 14, 2000. He stated that the Town is still responsible for monitoring the site and the Town now holds title to over 170 acres.

The Eco-Industrial Park project is moving along, and the Town is being contacted at least once a month from places as far away as India looking for information on the covenants, guidelines, etc., that are in place to see how that project works. Londonderry's Planning and Economic Development Director Peter Lowitt left the Town's employ in February of last year, and after much searching for a replacement, Andre Garron was hired for the position after serving eleven years in Goffstown, NH.

The bond issue for the sewer project was approved on Tuesday and the engineering will soon be undertaken as will a series of public hearings on the project once there is more information available. The bond issue for road reconstruction was not so successful although it received a solid majority, it did not receive the two thirds vote required of a bond issue.

OPENING REMARKS (Cont'd)

He then spoke briefly on the other items planned for presentation at today's meeting, giving a short history of and the anticipated results for each. He reported that the Town is in sound financial condition, with a fairly stable tax rate over the last half dozen years. Last year, as a result of the Claremont issue, the tax rate was lowered dramatically. He added that the Town's Finance Director and delegation of Representatives working with the New Hampshire Municipal Association worked tirelessly to bring the issue to resolution in a timely manner.

He thanked all members of the boards and committees, the town personnel and the members of the Council without whose support we would not be able to accomplish all that has been done over the last year.

Moderator Michels thanked Mr. Plante for his presentation, then began the meeting at 9:35 AM by noting the results of Article No. 1, which is the Elections held on March 14, 2000. He again reminded all those elected on Tuesday to remain after the meeting to be sworn into office.

Asst. Moderator Cynthia Rice-Conley then read Article No. 4:

ARTICLE NO. 4 ***[RECONSTRUCT PARMENTER BARN]***

To see if the Town will vote to raise and appropriate THIRTY ONE THOUSAND DOLLARS ($31,000) for the purpose of re-constructing the Parmenter Barn, or any activities related to the Flax Field Project.

If passed, this article will have a tax impact of $0.02 in FY 00/01.

John Dahlfred **MOTION** to move Article No. 4 as read.
Virginia Dahlfred **SECOND.**

Mr. Dahlfred then gave presentation, covering the history of the Parmenter Barn and its intended future service once re-constructed as the Flax Field Museum adjacent to the Morrison House Museum. There are also plans to add the Black Smith Shop to the property to complete the history of the project.

Chairman Vecchione noted that the Town Council supported the Article on a 4-0-0 vote.

Ron Campo noted that the Budget Committee supported the Article on a 4-1-0 vote; he added that this will continue the project funded by a grant and if the project is not completed, it may jeopardize future grant funding.

Moderator Rice-Conley asked if there was further comment.

Ken Hajjar **MOTION TO MOVE THE QUESTION**
John Silvestro **SECOND.**
Vote to move the question **UNANIMOUS.**

ARTICLE NO. 4 ***[RECONSTRUCT PARMENTER BARN]*** (Cont'd)

Moderator Rice-Conley then called to vote on Article No. 4 as presented.
Vote **UNANIMOUS TO PASS.**

Dan Vecchione **MOTION TO RESTRICT RECONSIDERATION** of Article No. 4.
Mark Oswald **SECOND.**
Vote **UNANIMOUS.**

Moderator Rice-Conley then read Article No. 5:

ARTICLE NO 5 ***[CONSTRUCTION OF A SKATE PARK]***

To see if the Town will vote to raise and appropriate SEVENTY FIVE THOUSAND NINE HUNDRED DOLLARS ($75,900) for the purpose of constructing a skate park in the Town of Londonderry.

If passed, this article will have a tax impact of $0.06 in FY 00/01.

Marianne Roy **MOTION** to move Article No. 5 as presented.
Richard Goudreaux **SECOND.**

Marianne Roy, Rich Goudreaux, Brandon DeCola, Evan Roy, and Steve Whitney presented by explaining that there is a Town Ordinance that prohibits skating or skateboarding on streets and roadways. The Town's youth have been utilizing the Town of Litchfield's skate park to date. The group worked to gather over 200 signatures for support for the park. She noted that the Police Chief and Recreation Director both have offered their support of the park proposal.

Steve Whitney explained the location of the park at the Nelson Field complex. He displayed a picture of the Litchfield park, and a chart of statistics on skate parks, which indicated the level of safety with them as opposed to that of organized sports. Mr. Goudreaux added that State statutes protects towns from liability if the park is built by a professional skate park developer. Marianne Roy stated that this is a one-time request for funding, since skate parks have a minimal maintenance and the group will continue with fund raising for its maintenance. She added that they have received a $10K grant from the County, and fund raising has amounted to $1,100 to date. She then reviewed the anticipated costs in the budget developed by the group for the construction of the park.

Chief Ryan stated that he has contacted the Police Chiefs of several surrounding towns that have skate parks and found that they are beneficial to the Towns. Recreation Director Art Psaledas stated that the Recreation Commission is whole heartedly behind this project and he is personally in support as well. He added that not all children want to participate in group sports, and the park is needed.

Councilor Vecchione stated that the Article received the Council's support on a 4-0-0 vote.
Ed David stated that the Article received a 4-1-0 vote of support from the Budget Committee as they felt strongly that the park would insure the safety of the children utilizing it instead of the streets.

ARTICLE NO 5 ***[CONSTRUCTION OF A SKATE PARK]*** (Cont'd)

Ken Hajjar **MOTION TO MOVE THE QUESTION.**
Ed David **SECOND.**
Vote to move the question **UNANIMOUS.**

Moderator Rice-Conley asked if there was further comment, hearing none, called the vote on Article No.5.
Vote **UNANIMOUS TO PASS.**

Ken Hajjar **MOTION TO RESTRICT RECONSIDERATION.**
Theresa Rochileau **SECOND.**
Vote **UNANIMOUS.**

Moderator Michels then Read Article No. 6:

ARTICLE NO. 6 ***[RAISE AND APPROPRIATE FUNDS FOR THE PURCHASE OF LAND]***

To see if the Town will vote to raise and appropriate FOUR HUNDRED THOUSAND DOLLARS ($400,000) for the purpose of purchasing land to site a new South Fire Station and Police Facility. This will be a non lapsing appropriation per RSA 32:7, VI and will not lapse until the property is purchased or by June 30, 2005, whichever is sooner; and further to authorize the Council as agents to expend.

If passed, this article will have a tax impact of $0.31 in FY 00/01.

Mark Oswald **MOTION** to move Article No. 6 as read.
Larry O'Neill **SECOND.**

Town Manager Richard Plante stated that there has been an ongoing debate for probably a dozen years or so regarding the construction and location of a police facility. Although there have been many discussions held regarding a proposed location over those years, including adding onto the present site and facility, nothing has yet come to fruition. With regard to South Fire Station, the septic system for that facility is under Rte. 102, and if the State chooses to widen Rte. 102, the Town will lose that facility. The article funds the authorization of the Council to location and negotiate for the relocation of those facilities.

John Silvestro noted that the Budget Committee opposed this article unanimously for several reasons, one of which is that there should have been a location and value of the land presented with the Article. It was also felt that the cost of the land should be rolled into a bond article for the building of the facilities themselves.

Dan Vecchione reported that the Council supported this Article on a 4-0-0 vote because it is felt that the Town needs to move in the direction of finding and negotiating for available property now.

Ben Parker noted that an alternate approach to the purchase was discussion to option the purchase of land that the Budget Committee proposed. Finance Director Peter Curro stated that he served as Chairman of the

ARTICLE NO. 6 ***[RAISE AND APPROPRIATE FUNDS FOR THE PURCHASE OF LAND]*** (Cont'd)

Capital Planning Committee over the past year, and it was the feeling of the Committee that there is an urgency to the purchase of land for these facilities which are proposed on prime locations on Rte. 102. The recommendation of the Committee is to build the facilities in the third year of the plan but the land needs to be obtained now so that when the buildings are planned, we can have a realistic proposal for the facilities.

Ken Hajjar stated that the Budget Committee was in favor of finding the land, but that it is difficult, as a public entity, to negotiate a favorable price by advertising what you have to spend. He would like to amend the article to $50K so that the Town can negotiate an option on the land, and then come to Town Meeting next year with a parcel and a negotiated price.

Ken Hajjar **MOTION TO AMEND** Article No. 6 to $50K.
Ed David **SECOND.**
Moderator Michels then noted that the question is now on the amended Article No. 6 which is $50K. He asked for further comment.

Mr. Plante stated that there are problems with options, because it would tie up a land owner for a year or so; further the amendment limits the purchase price to $50K, not for the purpose of obtaining an option.

Greg Carson proposed to amend the language to delete "Purchase of Land". Moderator Michels replied that there is a motion to amend the article to $50K, which must first be dispensed. Greg Carson asked that if the vote is taken now and the Article amended to $50K, would this be enough to cover architectural and engineering fees to review two separate sites and make an offer for an option on the properties. Finance Director Peter Curro responded that having the land ahead of time will eliminate the need for extended architectural and engineering fees which would come out of the bond article at a later date.

Ed David noted that many citizens have expressed their concern to him over the last several weeks for this Article; mostly the concern was for location. This concern was the reason the Budget Committee did not support this article; there was no known location specified for these facilities.

Mark Oswald **MOTION TO MOVE THE QUESTION.**
Dan Vecchione **SECOND.**
Vote on the Motion to move the question **UNANIMOUS.**

Moderator Michels asked if there was further comment on the amendment to change the dollar amount from $400,000 to $50,000; hearing none, he requested a vote on the amendment.
Vote **UNANIMOUS TO DEFEAT.**

Moderator Michels noted that the Article stands as presented at $400,000. He asked if there was further discussion or amendments.

ARTICLE NO. 6 ***[RAISE AND APPROPRIATE FUNDS FOR THE PURCHASE OF LAND]*** (Cont'd)

Dick Higgins **MOTION TO MOVE THE QUESTION**
Dan Vecchione **SECOND.**
Vote **UNANIMOUS** .

Moderator Michels call the vote on Article No. 6 as presented.
Vote **UNANIMOUS TO DEFEAT.**

Diane LeBreaux **MOTION TO RESTRICT RECONSIDERATION.**
Ken Hajjar **SECOND.**
Vote **UNANIMOUS.**

Moderator Michels then read Article No. 7:

ARTICLE NO. 7 ***[FISCAL YEAR 2000-2001 OPERATING APPROPRIATIONS-BUDGET]***

To raise such sums of money and make appropriations of the same as may be necessary to defray Town charges, exclusive of warrant articles and increases resulting from collective bargaining agreements, for the ensuing fiscal year, July l, 2000 through June 30, 2001.

This article, if passed will have a tax impact of $5.91 in FY 00/01.

Dan Vecchione **MOTION** to move Article No. 7 for the sum of $17,725,292.
Andy Greco **SECOND.**

Finance Director Peter J. Curro then gave a brief presentation on the proposed budget, explaining the effects of the Claremont decision upon the tax rate. An increase in revenues, he noted, was mostly due to the registration of more and new automobiles. The tax base has also seen a progression of increases over the last ten years; however, the bulk of that increase has been in residential growth.

He also explained Fund Balance, and how surplus is used to reduce the tax rate. He also reviewed the bonding capacity of the Town and plans for future projects, such as the Sewer Bond article that passed Town Meeting on Tuesday. On another slide which depicted the balance of Capital Reserves, he noted that this will be the first year that a draw down will take place to purchase a new highway vehicle.

He then reviewed the budget, noting that under a plan presented several years ago, the Fire Chief and Deputy Fire Chief requested personnel be added over a three year period in order to save overtime costs by utilizing a different manning schedule. He reported that this will be the first turn over of the Police car fleet under the lease/purchase program presented six years ago.

Mr. Curro then reviewed the revenues, the breakdown by department of the budget expenses, and debt service.

ARTICLE NO. 7 ***[FISCAL YEAR 2000-2001 OPERATING APPROPRIATIONS-BUDGET]***
(Cont'd)

Mr. Curro noted that with regard to the Capital Plan presented this year, all the items proposed for this year, with the exception of the Road Reconstruction project, which was defeated Tuesday, have received positive feedback.

Dan Vecchione noted that the budget is the Council's budget, and after much deliberation was accepted on a 4-0-0 vote. Ben Parker of the Budget Committee stated that the Committee also supported the Council's budget on a 5-0-0 vote.

David Kelley **MOTION TO AMEND** the budget by adding $175,000 for the construction of athletic fields at the West Road facility.
Ken Hajjar **SECOND.**
Mr. Kelley explained that the $250,000 article presented to the Council on their preliminary warrant was ultimately not supported. He stated that there is $175K in Impact Fees to supplement the request, the engineering has been completed on the land purchased two years ago, and he would like to see funding to complete the much needed fields at that facility.

Lisa Evarts asked what the tax impact of the $175K would be. Finance Director Peter Curro stated that it would be an added $0.13/per thousand dollars of valuation.

Steve Young asked why this wasn't an Article on the Warrant. Mr. Kelley stated that it was presented to the Council, but was defeated without sufficient time to petition a replacement article. Councilor O'Neill stated that it was presented to the Council as an Article, but did not receive sufficient support of the Council to bring it to Town Meeting.

A resident asked what the schedule of completion was to be. Mr. Plante replied that Phase I is planned for two fields and parking; with the help of the Army Corps of Engineers, playing fields would be ready in two years. He added that there is another parcel adjacent to the West Road facility that is anticipated to be donated to the Town this summer by Continental Paving, Inc.

Chairman Vecchione stated that the vote of Town Meeting was based on the statements that the $350K purchase would be all the funds requested, since fund raising would maintain the facility. Councilor Greco stated that he was also opposed to the motion for the same reasons. He added that the use of Impact Fees to cover the second and third phases of construction should be sufficient. Councilor O'Neill noted that the property to be donated is in better condition that the West Road facility and suggested that the funding be used to get soccer fields online now on that lot.

Recreation Director Art Psaledas stated that when the Article was presented two years ago, the statements made were that there would be no more money requested for land for recreational use, not to develop that land, or maintain it once it is developed.

ARTICLE NO. 7 ***[FISCAL YEAR 2000-2001 OPERATING APPROPRIATIONS-BUDGET]***
(Cont'd)

Perry Craver stated that Phase I is going to cost the additional $175K, what is being argued now is when we pay it and what we get for it. He noted his understanding is that to vote this in now will get the Town two fields next year, but to vote it down and use impact fees only would get the Town fields in three or four years. Mr. Plante responded that even with the increase in the budget the work will be done by the Army Corps of Engineers and others, and still is anticipated to take at least two years.

Nancy Mari asked if there could be guarantee that this additional $175K, if voted into the budget, would in fact be used for the recreation fields. Mr. Plante stated that it is funds added to the budget, and would be understood to be designated for that purpose.

Moderator Michels, noting no further discussion, called the vote on the amendment to add $175K to the budget.
Vote **UNANIMOUS TO DEFEAT.** Moderator Michels noted that the budget remains at $17,725,292.

Martin Bove **MOTION** to amend the budget by adding $30,000 for maintenance of the Town's web site.
Mark Oswald **SECOND.**
Mr. Bove stated that one of the major components of discussion during the elections this year was that of communications. He stated that the funding proposed would hire a Webmaster rather than using students as was suggested during the budget review process.

Budget Committee Chairman Ed David stated that the budget for the Web maintenance was presented at $25K, which was removed by vote of both the Council and Budget Committee. While he agreed with putting some funding in the budget, $30K is too high.

Finance Director Peter Curro stated that the original page was brought online under a grant and as an Economic Development tool. The information on that page is presently outdated due to funding having been eliminated for updates and maintenance over the last few years. He stated that there are plans to work with student volunteers to expand the page, obtain commercial sponsors, get an online Library service, and perhaps extend some of the Town Hall services to the Internet as well.

There was further discussion regarding the proposed capabilities and services that could be offered by an upgraded Site and how to get to that point; various funding mechanisms for maintenance and upgrade costs, etc.

Chairman Vecchione **MOTION TO MOVE THE QUESTION.**
Ed David **SECOND.**
Vote to move the question **UNANIMOUS.**

Moderator Michels then called the vote on the amendment to add $30K to the budget.
Vote **UNANIMOUS TO DEFEAT.**

ARTICLE NO. 7 ***[FISCAL YEAR 2000-2001 OPERATING APPROPRIATIONS-BUDGET]***
(Cont'd)

Byron Breda **MOTION TO AMEND** the budget by adding $150K to the Fire Department Budget for the purpose of minimum staffing of two firefighters and one officer on each engine company.
Janice Cardwell **SECOND.**

Mr. Breda then explained that firefighter safety is dependent upon a minimum staffing level for responding engine companies. The present two-man engine company violates labor law and OSHA regulations. He suggested that the additional three firefighters planned to be added next year should be added this year to bring the Department into compliance. He noted that the national standard is five men on an engine company, five on a ladder company; currently, the Town of Londonderry has three on each.

Chief Sypek stated that while he agrees with Mr. Breda's explanations, he did submit a staffing plan to the Council and he would agree to remain with that plan. The Budget Committee and Town Council have worked very hard to consider all factors of the plan and have supported it.

Mr. Breda explained further that it is a Federal Program of Two-in-Two-out, and the safety is for the firefighters, not the people. He noted his years of experience with firefighting and the surrounding community's staffing levels.

Dan Vecchione **MOTION TO MOVE THE QUESTION.**
Steve Young **SECOND.**
Vote to move the question **UNANIMOUS.**

Moderator Michels noted that the question is on the amendment to add $150K to the budget, and called the vote. **VOTE UNANIMOUS TO DEFEAT.**

Councilor Greco **MOTION TO AMEND** the budget by adding $5K to the budget to support the Senior Citizens and Cultural Affairs Committees activities.
Councilor Oswald **SECOND.**

Councilor Greco stated that the Cultural Affairs and the Elder Affairs committees have just begun this past year to undertake their business. He stated that the $5K is a small amount to allocate to these Committees for their planned activities.

Nancy Mari stated that she had a problem with a Councilor amending the budget when it was previously stated that the budget originally put before the meeting was the Council's budget figure. Councilor Greco replied that this is not the first time that a Town Councilor has adjusted the budget.

Councilor Oswald added that both committees are new and had missed the budget process. Both of the committees represent Londonderry residents, in many cases residents that are new and are becoming involved in Town government. Chairman Vecchione stated that he attended an Elder Affairs Committee meeting and

ARTICLE NO. 7 ***[FISCAL YEAR 2000-2001 OPERATING APPROPRIATIONS-BUDGET]***
(Cont'd)

found that the seniors would like to take bus trips which they cannot afford. The Town presently does nothing for its senior citizens and this is a small step for supporting a program.

Ben Parker stated that he supports the Elder Affairs Committee, but after having spent many hours going over the budget with the Council, he would concede that there has to be some flux in the budget to cover these needed expenses.

Russ Lagueux **MOTION TO MOVE THE QUESTION.**
Dan Vecchione **SECOND.**
Vote to move the question **UNANIMOUS.**

Moderator Michels noted that the question is on the amendment to add $5K to the proposed budget. He then called the vote on the amendment.
Vote **UNANIMOUS TO PASS.**

Moderator Michels then noted that the question is on the amended budget at $17,730,292. He asked if there was further comment.

Dan Vecchione **MOTION TO MOVE THE QUESTION.**
Andy Greco **SECOND.**
Vote to move the question **UNANIMOUS.**

A resident asked if Article No. 12 fails, whether the Cable Department Capital Outlay for $117K could be used for the same purpose. Finance Director stated that the Cable Department Capital Outlay budget is for new equipment. If the studio is not built, for whatever reason, the funds will remain in the Cable Fund as surplus to the Cable Fund.

Moderator Michels then noted that the question is now on the amended budget of $17,730,292.
Vote **UNANIMOUS TO PASS.**

Dan Vecchione **MOTION TO RESTRICT RECONSIDERATION.**
John Silvestro **SECOND.**
Vote **UNANIMOUS.**

Vinnie Samson **MOTION** to move Article No. 12 next.
Mr. Brodeur **SECOND.**
Vote **UNANIMOUS.**

Moderator LeBreaux the read Article No. 12:

ARTICLE NO. 12 ***[RAISE AND APPROPRIATE FUNDS FOR THE COMPLETION OF THE CABLE BUILDING - by Petitioners]***

To see if the Town will vote to raise and appropriate SEVENTY SIX THOUSAND, SEVEN HUNDRED FIFTY DOLLARS ($76,750) for the purpose of completing the construction of the Londonderry Access Facility.

If passed, this article will have a tax impact of $0.06 in FY 00/01.

Cindy Eaton **MOTION** to move Article No. 12 as read.
Dick Plante **SECOND.**

Moderator LeBreaux noted that the presenters of the Article needed a few minutes to set up their presentation and **called a short recess at 11:35 AM. Meeting reconvened at 11:45 AM.**

Cindy Eaton explained the Request for Proposal process for the Cable facility after last year's Town Meeting vote to approve $300K for the building and the work of the Cable Building Committee over the last year. It was noted by another of the group presenting that inflation costs were 10-15%, so this, along with unanticipated site work costs, have brought the building costs over the budget at this point.

Ken Hajjar of the Budget Committee noted that the Committee supports the Article on a 5-0-0 vote. He added that the studio needs to vacate the High School by June or July of this year, because of their need for the space for accreditation.

Council Chairman Daniel Vecchione stated that the Council did not support this on a 0-4-0 vote, because it agreed that the vote of Town Meeting for $300K last year should stand. He added that the cost of the septic system may not be needed because of the sewer project having been approved. Cable Coordinator Dottie Grover noted that if the sewer project were passed last year, it may have been in place in a timely fashion enough for the new building to take advantage of it; however, it is now anticipated that the line will not be in place for nearly two years. Further, a holding tank would not be allowed to be in place for two years while the line is being constructed. Building/Health Inspector James T. Smith agreed, noting that statute provided for a one year leeway with a holding tank.

Resident John Gomes asked if there was equipment approved with the $300K Article at last year's meeting; further, is the $112K in the budget this year for equipment in addition to the $137K reserve? Ms. Grover replied that there was no equipment included in the Article as passed last year which she made very clear with a question posed and her answer given at Town Meeting to that effect. The equipment purchases planned this year are specifically for the new studio since there is no room in the present studio for any new equipment.

Mr. Gomes then asked if it were feasible for the Cable Studio to share space with Adelphia, or wait to move into the field house at the school. Cindy Eaton replied that Adelphia has made no offer of which she is aware for the Studio to move into their facility.

ARTICLE NO. 12 ***[RAISE AND APPROPRIATE FUNDS FOR THE COMPLETION OF THE CABLE BUILDING - by Petitioners]*** (Cont'd)

Mr. Gomes asked if leasing space was looked into. Ms. Eaton stated that lease costs are very high; further, the studio is for the students at the high school as well as the public, and it would not be feasible to have an off-campus facility.

Further discussion ensued regarding cutting down the size of the building to stay within budget; discussion on the use of the surrounding schools' septic systems vs. the sewer line usage; the Cable Building Committee's work on the budget and unanticipated building expenses and the size of the current studio as opposed to the proposed building and the community's needs.

Greg Carson **MOTION TO AMEND** the Article to $1.00.
Richard Bielinksi **SECOND.**
Mr. Carson stated that his amendment to one dollar would allow the Council and the Town to spend additional budget dollars on the Cable facility as needed from the Cable Fund.

Councilor Oswald asked if the $1 budget items would be from the Cable Budget or the Reserve Fund. Finance Director Peter Curro stated that there is $100K in the Cable Operating Budget for equipment that is funded through the Cable Fund Surplus. If the funds are needed, they could be diverted from Cable Surplus to finish the building and use the difference for equipment, which is already stated in the Operating Budget.

Councilor Oswald asked for assurance that the funds would come from the Cable Fund and not the Town budget. Mr. Carson replied that it could be taken from either; the $1 allows the Council the latitude to take if from wherever it sees fit.

Perry Craver asked what would happen if the Article as it stands, or the amendment to $1 does not pass? Atty. Connell stated that based on a Supreme Court case in the early seventies, the court did rule that even if the Town voted not to pass a particular article could that action be funded by another source; either by another article or a line item in the Town budget, that it was permissible to do so. Mr. Curro recently spoke with the Department of Revenue Administration and learned that they would take a "NO" vote as the Town's intent not to spend money for that purpose and that would take precedence. Here, we have last year's Warrant Article which remains in place and the funds can still be expended from that Article.

Mr. Curro stated that Mr. Carson's amendment falls under the DRA's strict interpretation that you cannot expend from a line with a zero appropriation. By leaving the symbolic dollar in there, the Council has the capability to expand the Cable facility funding by the one dollar. He is asking the Council to use the funding that is now in the budget for the Cable equipment to be diverted to the completion of the Cable Studio.

Cindy Eaton noted that it has been said that the Committee should go back and redesign the building to stay within the budget; there is no time left for that, further, a redesign would draw down the budget even more.

Audrey Trickett, noted that the minutes from last year's meeting which indicated that the Cable Department

ARTICLE NO. 12 ***[RAISE AND APPROPRIATE FUNDS FOR THE COMPLETION OF THE CABLE BUILDING - by Petitioners]*** (Cont'd)

receives $10K each year from (Harron) now Adelphia for equipment. Ms. Grover replied that this funding is an equipment grant which is included in the Franchise Agreement and can only be spent on small equipment.

Ed David stated that the Cable Building Committee brought forth a proposal last year which was drastically reduced without input from them as to how they could fit the new number into their needs. There is no space elsewhere in Town for this studio and the only means of communication for the citizens; which by the way was a subject of discussion among the candidates this year.

John Silvestro **MOTION TO MOVE THE QUESTION** on the amendment.
Dan Vecchione **SECOND.**
Vote **UNANIMOUS.**

Moderator LeBreaux then called the vote on the amendment.
Vote **UNANIMOUS TO DEFEAT.**

John Silvestro **MOTION TO MOVE THE QUESTION** on the original Article.
Ron Campo **SECOND.**
Vote **UNANIMOUS.**

Moderator LeBreaux then noted that the question is on the Article as presented. Moderator Michels then noted that he received a request for secret ballot from fifteen voters present. He requested that the blue paper ballots marked "A" through "H" be used, in particular Ballot "A" for this vote. He stated that the clerks will move among the members of the meeting to receive votes with voting to be closed at 12:25 PM.

Moderator Michels asked if there was anyone else that needed to vote; seeing none, he declared the voting officially closed on Article No. 12. He then moved to the next article while the Clerks tabulated the vote on Article No. 12.

Moderator Michels then read Article No. 8:

ARTICLE NO. 8 ***[APPROPRIATE FUNDS TO CAPITAL RESERVE FUNDS TO REPLACE AMBULANCES, HIGHWAY HEAVY EQUIPMENT, FIRE TRUCKS AND HIGHWAY TRUCKS]***

To see if the Town will vote to raise and appropriate the sums set forth below to be placed in capital reserve funds already established, and to authorize the Town Council to act as agents to expend said funds.

Article 7 - 1994	Ambulances	$23,143	Tax Impact: $0.02
Article 7 - 1995	Highway Trucks	$50,000	Tax Impact: $0.04
Article 6 - 1994	Highway Heavy Equipment	$24,250	Tax Impact: $0.02
Article 11 -1995	Fire Trucks	$74,000	Tax Impact: $0.06

ARTICLE NO. 8 ***[APPROPRIATE FUNDS TO CAPITAL RESERVE FUNDS TO REPLACE AMBULANCES, HIGHWAY HEAVY EQUIPMENT, FIRE TRUCKS AND HIGHWAY TRUCKS]*** (Cont'd)

Andy Greco **MOTION** to move Article No. 8 as read.
Dan Vecchione **SECOND.**

Town Manager Richard Plante stated that this is similar to a "savings account" based on the value of depreciation of the vehicles intended for replacement. This is the first year that the account will be used for the purchase of a vehicle rather than impacting the tax rate all at once with the purchase price.

Council Chairman Vecchione noted that the Council supports the Article on a 4-0-0 vote.

Ken Hajjar of the Budget Committee stated that the Committee supports the Article on a 5-0-0 vote.

Moderator Michels asked if there was discussion on the article; hearing none, called the vote.
Vote **UNANIMOUS TO PASS.**

Dan Vecchione **MOTION TO RESTRICT RECONSIDERATION.**
Ed David **SECOND.**
Vote **UNANIMOUS.**

Moderator Michels then read Article No. 9:

ARTICLE NO. 9 ***[RAISE AND APPROPRIATE FUNDS TO A NON LAPSING EXPENDABLE TRUST FUND FOR UNANTICIPATED MAINTENANCE AND OPERATIONS NEEDS]***

To see if the Town will vote to establish an Non Lapsing Expendable Trust Fund under the provisions of RSA 31:19-a for the purpose of funding unanticipated maintenance and operational needs of the Town and to raise and appropriate the sum of FIFTY THOUSAND DOLLARS ($50,000) to be placed in this fund; and to authorize the Town Council as agents to expend. Said fund shall include principal and interest.

If passed will have a tax impact of $0.04 in FY 00/01.

Dan Vecchione **MOTION** to move Article No. 9 as read.
Mark Oswald **SECOND.**

Mr. Vecchione stated that this is a $50K fund to cover any and all unanticipated expenses not in the budget. It will be under the purvue of the Council and will be spent only for emergencies.

John Silvestro of the Budget Committee stated that the Committee was opposed unanimously to this Article since each Department has a miscellaneous line item.

ARTICLE NO. 9 ***[RAISE AND APPROPRIATE FUNDS TO A NON LAPSING EXPENDABLE TRUST FUND FOR UNANTICIPATED MAINTENANCE AND OPERATIONS NEEDS]*** (Cont'd)

Finance Director Peter Curro stated that this is a trust fund not an operating budget item. The difference is that this fund will not lapse, unlike the unexpended items in the operating budget. An example of the need of this account is the recent failure of a pump in the Fire Department which was unanticipated and unfunded. Replacement of this pump meant that the Department had to do without some other equipment to make this replacement. Replacing only those funds expended would be the only expense to the Town from year to year.

Moderator Michels then interrupted the discussion to announce the results of the vote on Article No. 12 which was: (Yes) - 91 (No) 100. He declared Article No. 12 DEFEATED.

Martin Bove **MOTION TO RECONSIDER ARTICLE NO. 12**
Ken Hajjar **SECOND.**

Greg Carson stated that if the question is re-opened, the vote just taken would then be nullified. Moderator Michels stated that this is correct. If the vote to reconsider passes, the Article will be open for all discussion as presented.

Mr. Bove stated that there are were still residents in line to speak when the Motion to Move the Question was entertained. Mr. Gabiddon stated that there was a Motion to Restrict Reconsideration given by a seated resident before Mr. Bove's Motion to Reconsider. Moderator Michels stated that he did not hear that Motion.

Greg Carson stated that if we do not reconsider the Article, the statement that is made by Town Meeting to the Department of Revenue Administration is that we will not spend any additional dollars for this project. Atty. Connell stated there is no intent to repeal the intent of last year's article so that purpose is available for the addition of funds.

Betsy McKinney stated the she urged the Meeting to vote "NO" on the Motion to Reconsider, since a lot of those who voted on the Article have now left the meeting.

DanVecchione **MOTION TO MOVE THE QUESTION.**
Harry Anagnos **SECOND.**
Vote **UNANIMOUS TO PASS.**

Moderator Michels then explained the vote to the Meeting; a "yes" vote is to discuss Article No. 12 again; a "no" is to close Article No. 12. He then called the vote.
Vote **UNANIMOUS TO DEFEAT.**

Councilor Greco **MOTION TO RESTRICT RECONSIDERATION.**
Richard Bielinksi **SECOND.**
Vote **UNANIMOUS TO RESTRICT RECONSIDERATION.**

Moderator Michels then returned to Article No. 9:

ARTICLE NO. 9 ***[RAISE AND APPROPRIATE FUNDS TO A NON LAPSING EXPENDABLE TRUST FUND FOR UNANTICIPATED MAINTENANCE AND OPERATIONS NEEDS]*** (Cont'd)

Harry Anagnos stated that the surplus be used at the end of the year to cover emergency expenses. Finance Director Peter Curro stated that the revenues in surplus lapse to the General Fund at the end of the year. The Council can only petition the DRA for use of that fund in a serious emergency case only The Town's policy is to maintain a 5-7% (of the gross appropriations of a budget) in Fund Balance. Presently, it is at $1.5M.

Mark Oswald **MOTION TO MOVE THE QUESTION.**
Ken Hajjar **SECOND.**
Vote **UNANIMOUS.**

Moderator Michels noted that the question is on Article No. 9 as read, and called the vote.
Vote **UNANIMOUS TO DEFEAT.**

Andy Greco **MOTION TO RESTRICT RECONSIDERATION.**
Ed David **SECOND.**
Vote **UNANIMOUS TO RESTRICT RECONSIDERATION.**

Moderator Michels then read to Article No. 10:

ARTICLE NO. 10 ***[RAISE AND APPROPRIATE FUNDS for LONDONDERRY AFSCME Local 1801 CONTRACT AGREEMENT]***

To see if the Town will vote to approve the cost items included in the collective bargaining agreement reached between the Town of Londonderry and the Londonderry American Federation of State County and Municipal Employees (LAFSCME), Local 1801, which calls for the following increases in salaries and benefits:

Year	Estimated Increase	Tax Impact
FY 01	$ 47,320	$0.04
FY 02	$ 40,014	$0.03
FY03	$ 39,432	$0.03

and further to raise and appropriate the sum of $47,320 for the 2000/01 fiscal year, such sum representing the additional cost attributable to the increase in salaries and benefits over those of the appropriation at the current staffing levels paid in the prior fiscal year.

Mark Oswald **MOTION** to move Article No. 10 as read.
Larry O'Neill **SECOND.**

ARTICLE NO. 10 ***[RAISE AND APPROPRIATE FUNDS for LONDONDERRY AFSCME Local 1801 CONTRACT AGREEMENT]*** (Cont'd)

Town Manager Richard Plante explained that the bargaining unit covers the Highway crew and clerical staff at Town Hall. The details of the contract include an insurance co-pay of 15%; the "Fast Day" holiday has been eliminated since it is no longer a State recognized holiday. The contract increases are based on a the Consumer Price Index.

Ron Campo from the Budget Committee stated that the Committee could not give a vote on this contract, since there was not enough information at the time it was presented.

Moderator LeBreaux asked for the Council's comments on the Article. Dan Vecchione noted that the Council supported the Article on a 4-0-0 vote.

Mark Oswald **MOTION TO MOVE THE QUESTION.**
Andy Greco **SECOND.**
Vote **UNANIMOUS.**

Moderator LeBreaux noted that the question was on Article No. 10 as presented.
Vote **UNANIMOUS.**

Dan Vecchione **MOTION TO RESTRICT RECONSIDERATION.**
Richard Bielinski **SECOND.**
Vote **UNANIMOUS TO RESTRICT RECONSIDERATION.**

Moderator LeBreaux then read Article No. 11:

ARTICLE NO. 11 ***[RAISE AND APPROPRIATE FUNDS for the LAEA CONTRACT AGREEMENT]***

To see if the Town will vote to approve the cost items included in the collective bargaining agreement reached between the Town of Londonderry and the Londonderry Administrative Employees Association (LAEA), which calls for the following increases in salaries and benefits:

Year	Estimated Increase	Tax Impact
FY 01	$ 53,259	$0.04
FY 02	$ 42,211	$0.03
FY 03	$ 37,390	$0.03

and further to raise and appropriate the sum of $53,259 for the 2000/01 fiscal year, such sum representing the additional cost attributable to the increase in salaries and benefits over those of the appropriation at the current staffing levels paid in the prior fiscal year

ARTICLE NO. 11 ***[RAISE AND APPROPRIATE FUNDS for the LAEA CONTRACT AGREEMENT]***
(Cont'd)

Larry O'Neill **MOTION** to move Article No. 11 as read.
Mark Oswald **SECOND.**

Mr. Plante explained the contract which covered the unaffiliated members of the Police and Fire Administration. This contract allows for a $900 cap on health insurance, also eliminates the "Fast Day" holiday, and adds a shift detail cost.

Ed David of the Budget Committee stated that the Budget Committee did not have a vote on this Article, because there was not enough information at the time it was presented.

Dan Vecchione noted that the Council supports the Article on a 4-0-0 vote.

Mark Oswald **MOTION TO MOVE THE QUESTION.**
Andy Greco **SECOND.**
Vote **UNANIMOUS.**

Moderator LeBreaux noted that the question is on Article No. 11 as presented.
Vote **UNANIMOUS TO PASS.**

Dan Vecchione **MOTION TO RESTRICT RECONSIDERATION.**
Ken Hajjar **SECOND.**
Vote **UNANIMOUS.**

Moderator Michels then read Article No. 13:

ARTICLE NO. 13 ***[RAISE AND APPROPRIATE FUNDS FOR THE PRESERVATION OF OPEN SPACE AND/OR AGRICULTURAL LAND - by Petitioners]***

To see if the Town will vote to raise and appropriate EIGHT HUNDRED THIRTY FIVE THOUSAND DOLLARS ($835,000) for the purpose of establishing a capital reserve fund under the provisions of RSA 35:1, for the preservation of open space and/or agricultural land. Said sum is to be raised from the TWO MILLION ($2,000,000) settlement from the Auburn Road superfund site.

If passed, this article will have no tax impact.

John Silvestro **MOTION** to move Article No. 13 as read.
Ken Hajjar **SECOND.**

Ken Hajjar **MOTION TO AMEND** the Article to $300K to be placed in the Conservation Trust Fund for the preservation of Open Space and/or agricultural land.

ARTICLE NO. 13 ***[RAISE AND APPROPRIATE FUNDS FOR THE PRESERVATION OF OPEN SPACE AND/OR AGRICULTURAL LAND - by Petitioners]*** (Cont'd)

John Silvestro **SECOND.**

Ken Hajjar stated that at the time of the Article's petition, the funds from the Auburn Road settlement had not been allocated to the Sewer project. There was also discussion to utilize those funds to cover several of the other articles presented to the Council at the time. However, the Council voted to apply the funds to the Sewer project, and several of the other Articles were subsequently removed. He stated that everyone who lives in Londonderry is aware of the market pressure right now to sell open space to residential and commercial uses. When the Open Space Program was introduced several years ago, it was realized that the cost of allowing such land to go to residential use would cost the Town a deficit for the services those homes would require in Schools, Fire, and Police.

Council Chairman Vecchione noted that when the Sewer bond article was discussed, it was agreed that if the article passed on Tuesday, this article would be withdrawn; however, now it is being amended. He added that we just turned down $400K for land for a Fire and Police facility somewhere in the future. He did not think that this is what the Council wanted and suggested that if the Town purchases land, it should be for the Fire and Police facilities.

Councilor Greco stated that the $1.8M received in the settlement is not a "bonus", it is repayment for the millions spent on the Auburn Road landfill by the Town for its remediation. He added that there is over $300,000 in Current Use Fees available for Open Space preservation. Finally, he noted, when the Article was presented to the Council, it was stated and understood that if Article No. 2, the Sewer Bond should pass, then this Article would be withdrawn by the petitioners. He stated that there also may be State grant funds available to the Town in the future. He asked that this Motion not be supported.

Ben Parker of the Budget Committee stated that this Article was supported, but that it would be up to the voters to set by ordinance, whether there should be more money for conservation.

Finance Director Peter Curro stated that the $300K amendment will be raised and appropriated directly on the tax rate.

Ken Hajjar stated that the Council voted to utilize the $1.8M from the Auburn Road settlement in a different manner; however he, as a petitioner, has the right to come before Town Meeting and ask if Town Meeting feels it is worth $0.25 per year to preserve open space and agricultural space as we can. That is what is being voted on, you either believe in the Conservation Program or you don't.

Conservation Commission member Mike Speltz stated that the Town Manager has requested funds from the Commission to purchase conservation lands such as the final purchase of the Mack property. However, he noted the Commission's fund cannot support the Town's needs as it has other obligations to cover. He agreed that spending dollars now on conservation will save many more in the future.

ARTICLE NO. 13 ***[RAISE AND APPROPRIATE FUNDS FOR THE PRESERVATION OF OPEN SPACE AND/OR AGRICULTURAL LAND - by Petitioners]*** (Cont'd)

Diane LeBreaux **MOTION TO MOVE THE QUESTION.**
Dan Vecchione **SECOND.**
Vote **UNANIMOUS.**

Moderator Michels stated that the question is on the amendment to $300K, and called the vote.
Vote **UNANIMOUS TO PASS.**

Moderator Michels then noted that the question is on the Article as amended to $300K. He recognized Chairman Vecchione.

Council Chairman Vecchione noted that all Current Use Funds, of which 100% is given, in the Conservation Fund currently amounts to around $300K.

Patrick Perry stated that he supports Open Space Preservation, but would like to see a concrete proposal before voting to fund this. Councilor Oswald responded that the Town still owes $450K to the Moose Hill Orchards deal to complete that purchase no later than July 1 of this year. The Historic District/Heritage Commission and the Conservation Commission also is working to obtain preservation status on ten or so additional properties they would like to preserve.

There was further discussion as to the balance of the Conservation Fund, the plans of the Town for future preservation projects and purchases, the Open Space/Orchard Preservation Article as passed several years ago by Town Meeting, which Mr. Plante explained was not specific to the Mack property. The funds for the purchase of the Mack property is being raised from the Conservation Fund, surplus, and over the past few years, the Town has received some funding from the Federal Farmland Protection Program.

A resident expressed concern that without passage of this amendment, there would not be sufficient funds to conclude the Mack purchase. Mr. Plante replied that there is presently $310K in the Conservation Fund, and $260K in Fund Balance; more than enough to cover the final installment of the Mack purchase.

Hank Chary **MOTION TO MOVE THE QUESTION.**
Dan Vecchione **SECOND.**
Vote **UNANIMOUS.**

Moderator Michels asked if there was further comment; hearing none, called the vote on Article No 13 as amended.
Vote **UNANIMOUS TO PASS.**

Perry Craver requested a **HAND VOTE** of the Article.
Moderator Michels asked that the Clerks assist with the hand vote. Results (Yes) 75 (No) 44. Moderator Michels declared **Article No. 13 PASSED.**

ARTICLE NO. 13 ***[RAISE AND APPROPRIATE FUNDS FOR THE PRESERVATION OF OPEN SPACE AND/OR AGRICULTURAL LAND - by Petitioners]*** (Cont'd)

Ken Hajjar **MOTION TO RESTRICT RECONSIDERATION.**
Ed David **SECOND.**
Vote **UNANIMOUS.**

Moderator Michels then read Article No. 14:

ARTICLE NO. 14 ***[TRANSACTION OF OTHER BUSINESS]***

To transact any other business that may legally come before this meeting. No business enacted under this article shall have any binding effect upon the Town.

Councilor Andy Greco noted that the 1999 Annual Town Report has been dedicated to Mr. William Lievens who has been a significant presence in the community for a number of years, serving many boards and committees.

Vernon VanGrevenhof **MOTION TO ADJOURN AT 1:35 PM.**
Ken Hajjar **SECOND.**
Vote **UNANIMOUS.**

Moderator Michels then reminded all those who have been elected to remain after the meeting for their swearing in ceremony. He declared the meeting adjourned.

Respectfully submitted,

Joan M. Savina

Joan M. Savina

INDEPENDENT AUDITOR'S REPORT

To the Town Council
Town of Londonderry, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Londonderry, New Hampshire as of and for the year ended June 30, 2000, as listed in the table of contents. These general purpose financial statements are the responsibility of the Town of Londonderry, New Hampshire's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Londonderry, New Hampshire as of June 30, 2000 and the results of its operations and cash flows of its non-expendable trust funds for the year then ended in conformity with generally accepted accounting principles.

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS
June 30, 2000

NOTE 1--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Londonderry, New Hampshire conform to generally accepted accounting principles for local governmental units, except as indicated hereinafter. The following is a summary of significant accounting policies:

Financial Reporting Entity

The Town of Londonderry, New Hampshire (the "Town") was incorporated in 1722 and adopted the Town Charter in 1982. The Town adopted a new Charter at the March 12, 1996 annual meeting, which became effective as of July 1, 1996. The Town operates under the Town Meeting form of government and performs local governmental functions authorized by State law.

The accompanying financial statements of the Town present the financial position of the various fund types and account groups, the results of operations of the various fund types, and the cash flows for non-expendable trust funds.

The financial statements include those of the various departments governed by the Town Council and other officials with financial responsibility, including the Town Trustees of Trust Funds and the Trustees of the Leach Library. The Town has no organizational units that meet criteria for inclusion in the financial statements as defined by the Governmental Accounting Standards Board.

Fund Accounting

The accounts of the Town are organized on the basis of funds and account groups, each of which is a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures/expenses. Accordingly interfund receivables and payables have not been eliminated. The various funds are summarized by type in the financial statements.

Individual funds and account groups summarized in the financial statements are classified as follows:

Governmental Funds

General Fund - used to account for all revenues and expenditures that are not accounted for in other funds or account groups.

Special Revenue Funds - used to account for specific restricted revenues and expenditures for various purposes. The following funds have been accounted for as Special Revenue Funds:

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
June 30, 2000

Cemetery Restoration Fund
Cable TV Fund
Sewer Fund
International Committee Fund
COPS Fast Grant Fund
Manchester Airport Transportation Management Authority Fund
Old Home Day Fund
Family Mediation Fund
Leach Library Fund
Conservation Commission Fund
Thanksgiving Basket Fund
DARE Fund
Common Walkway Fund
Recreation Fund
Eco Park Fund

Capital Projects Funds - are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment. The Town accounts for the following construction projects in its Capital Projects Funds:

South Londonderry Sewer Fund
South Londonderry Phase II Fund
Library Addition Fund
Exit 4A Fund
Sewer Treatment Plant Fund
Auburn Road Landfill Cap Fund
Delta Drive Fund
Cable TV Building Fund

Fiduciary Funds

Assets are held by the Town in a fiduciary capacity or as an agent for individuals, private organizations, and other governmental units, and/or other funds for various purposes and taxes collected for other governmental units. Receipts and expenditures of each fund are governed by statutes, local law, or the terms of the gift.

Trust Funds - Trust funds include expendable and non-expendable funds. Non-expendable funds are accounted for and reported as proprietary funds since capital maintenance is critical. Expendable trust funds (Capital Reserve Funds) are accounted for in essentially the same manner as governmental funds.

Agency Funds - Agency funds include developer's performance bonds, deferred compensation plan assets, and school agency funds.

Account Groups

Account groups are not funds; they do not reflect available financial resources and related liabilities, but are accounting records of general fixed assets and general long-term obligations, respectively. The following is a description of the Account Groups of the Town.

General Fixed Asset Account Group - is used to maintain control of and cost information for the general fixed assets of the Town.

General Long-Term Debt Account Group - is used to record the outstanding long-term obligations of the Town.

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
June 30, 2000

Basis of Accounting

The accrual basis is used for the non-expendable trust funds. The measurement focus of these funds is determination of net income, financial position and cash flows ("capital maintenance" focus).

Governmental funds utilize the modified accrual basis whereby revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures, other than interest on long-term debt, are recorded when the liability is incurred, if measurable.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the Town, therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met.

Licenses and permits, charges for services, and miscellaneous revenues (except investment earnings) are recorded as revenues when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are measurable and available. (See Property Taxes for property tax accrual policies.)

Assets, Liabilities and Fund Equity

Cash - Cash consists of cash balances on hand, demand deposits, overnight repurchase agreements, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments - Investments are stated at cost other than the non-expendable trust funds and the deferred compensation agency funds, which record investments at market value.

Restricted Cash - Restricted cash consists of savings deposits held in escrow accounts.

Taxes Receivable - Taxes levied during the current fiscal year and prior and uncollected at June 30, 2000 are recorded as receivables net of reserves for estimated uncollectibles of $69,363.

Prepaid Expenses - Payments made to vendors for services that will benefit periods beyond June 30, 2000 are recorded as prepaid items.

Fixed Assets - General fixed assets have been acquired for general governmental purposes. Assets purchased are recorded as expenditures in the governmental funds and capitalized at historical or estimated historical cost in the General Fixed Assets Account Group. Contributed fixed assets are recorded as general fixed assets at estimated fair market value at the time received.

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
June 30, 2000

Fixed assets consisting of infrastructure improvements including roads, bridges, curbs and gutters, streets and sidewalks, and drainage systems have not been capitalized. Such assets normally are immovable and of value only to the Town. Therefore, the purpose of stewardship for capital expenditures is satisfied without recording these assets.

No depreciation has been provided on general fixed assets. No interest has been capitalized on self-constructed assets because noncapitalization of interest does not have a material effect on the Town's financial statements.

Certain leased properties that take on elements of ownership are classified as capital leases in the General Fixed Assets Account Group. At June 30, 2000, vehicles and equipment of $1,303,363 are recorded under capital leases.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not included in the General Fixed Assets Account Group.

Deferred Revenue - Deferred revenue consists of measurable but unavailable amounts including property taxes and grant revenues.

Accrued Vacation and Sick Leave - Provision is made in the annual budget for vacation and sick leave. Town employees may accumulate sick leave days at a rate determined by job classification. Upon the voluntary termination of employment, an employee is entitled to receive compensation for up to 10 days of any accrued sick leave. The total estimated value of accumulated vacation and sick leave pay at June 30, 2000 is $455,323 and has been recorded in the General Long-Term Debt Account Group. The current portion, if any, is not material to these financial statements.

Long-Term Obligations - The Town reports long-term debt of governmental funds at face value in the General Long-Term Debt Account Group. Certain other governmental fund obligations not expected to be financed with current available financial resources are also reported in the General Long-Term Debt Account Group.

For governmental fund types, bond premiums and discounts, as well as issuance costs, are recognized during the current period. Bond proceeds are reported as an other financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

The Town has included its bond anticipation note for the Exit 4A construction project in the general long-term debt accounts group as it intends to issue long-term debt to finance the project (see Note 7).

Fund Equity - Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Designated fund balances represent tentative plans for future use of financial resources.

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
June 30, 2000

Residual Equity Transfer - Residual equity transfers are non-recurring transfers between funds. During 2000, the Town made non-recurring transfers of $117,394 from the Capital Projects Fund to the General Fund and $25,000 from the Cable TV Special Revenue Fund to the Capital Projects Fund.

Revenues, Expenditures and Expenses

Property Taxes - Taxes are levied on the assessed value of all taxable real property as of the prior April 1 ($1,205,762,606 as of April 1, 1999) and were due in two installments on July 1, 2000 and December 17, 1999. Taxes due after the due dates accrue interest at 12% per annum. Property taxes are recognized as revenue when received in cash or if available to finance current period operations (within sixty days of year end).

The Town collects taxes for the Londonderry School District and Rockingham County, both independent governmental units, which are remitted to them as required by law. Taxes appropriated during the year were $23,991,072 and $1,285,098 for the Londonderry School District and Rockingham County, respectively. These taxes are not recognized as revenues in these financial statements. The Town bears responsibility for uncollected taxes.

Under State law, the Tax Collector obtains tax liens on properties which have unpaid taxes in the following calendar year after taxes were due for the amount of unpaid taxes, interest and costs. During the year ending June 30, 2000, the tax lien was executed on April 14, 2000. These priority tax liens accrue interest at 18% per annum. If the property is not redeemed within a two year redemption period, the property is tax deeded to the Town.

Interfund Transactions

During the course of normal operations, the Town has transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying governmental and fiduciary funds financial statements reflect such transactions as operating transfers and are included in the results of operations. Nonrecurring transfers of equity between funds are treated as residual equity transfers and are reported as additions or deductions to fund balance.

Total Columns on Combined Financial Statements

Total columns on the general purpose financial statements are captioned "Memorandum Only" to indicate that they are intended only to facilitate financial analysis. No interfund eliminations have been made at arriving at the data, and it is not intended to present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles.

Comparative Data

Comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the Town's financial position and operations. However, comparative data has not been presented in all statements since its inclusion would make the statements unduly complex and difficult to understand.

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
June 30, 2000

Budgetary Data

The budget represents departmental appropriations as authorized by annual or special Town meetings in accordance with State statute. The Town Council may transfer funds between operating categories as they deem necessary. The Town adopts its budget under regulations of the New Hampshire Department of Revenue Administration which differ somewhat from generally accepted accounting principles in that the focus is on the entire governmental unit rather than on the basis of fund types. The legal level of budgetary control is at the entire governmental unit. Special revenue fund budgets are adopted only to the extent they interact with the general fund. Budgets for capital projects funds are adopted in the year the project is authorized and may extend over multiple accounting periods. Following is a reconciliation between the budget as presented for reporting purposes and the adopted budget.

Total Appropriations - March 1999		
Town Meeting		$ 16,800,457
Supplemental Appropriations - RSA 31:95b		80,300
Perspective Differences - Capital Projects Fund		(300,000)
Timing Differences - Federal Grant		(88,065)
General Fund	$ 15,801,490	
Special Revenue Funds	691,202	
Total		$ 16,492,692

Reconciliation of Exhibit C to Exhibit B

The results of operations are presented in the combined Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual - (Budgetary Basis) - General and Special Revenue Funds in accordance with the budgetary basis of accounting. The major differences between the budgetary basis of accounting and generally accepted accounting principals are that expenditures are recorded when encumbered as opposed to when the liability is incurred, and encumbrances are recorded as the equivalent of expenditures. Under State regulations, budgets for Special Revenue Fund are adopted only to the extent they interact with the General Fund. Accordingly, budgets have only been fully adopted for the Sewer Department Fund and the Cable TV Fund. Therefore the accompanying financial statements present only partial budgetary activity for the special revenue fund types.

General Fund

	Revenues and Other Financing Sources	Expenditures and Other Financing Uses
Exhibit B	$ 17,342,568	$ 15,795,864
Encumbrances - June 30, 1999		(91,976)
Encumbrances - June 30, 2000		277,326
Capital Leases	(179,724)	(179,724)
	$ 17,162,844	$ 15,801,490

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)

Fund Balances - June 30, 2000	$ 1,729,948	$ -	$ (609,401)	$ 1,115,552

Encumbrances

Encumbrance accounting, under which purchase orders and other commitments for the expenditure of monies are recorded in order to reserve a portion of the applicable appropriation, is employed as an extension of formal budgetary integration in Governmental Funds. Encumbrances outstanding at year end are reported as a component of fund balance since they do not constitute expenditures or liabilities and are detailed by fund type and function as follows:

	General Fund	Special Revenue Fund
General government	$ 40,397	
Public safety	3,890	
Highways and streets	125,873	
Sanitation	825	
Culture and recreation	5,646	$ 4,995
Economic development	4,900	
Capital outlay	95,795	
	$277,326	$ 4,995

NOTE 2--STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Compliance with Finance Related Legal Provisions - The Town has no material violations of finance related legal provisions.

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
June 30, 2000

NOTE 3--RISK MANAGEMENT

The Town is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended June 30, 2000, the Town was a member of the New Hampshire Municipal Association Property-Liability Insurance Trust, Inc. (NHMA-PLIT) and the New Hampshire Worker's Compensation Fund. The Town currently reports all of its risk management activities in its General Fund. These Trusts are classified as "Risk Pools" in accordance with generally accepted accounting principles.

The Trust agreements permits the Trust to make additional assessments to members should there be a deficiency in Trust assets to meet its liabilities. Generally accepted accounting principles require members of pools with a sharing of risk to determine whether or not such assessment is probable and, if so, a reasonable estimate of such assessment. At this time, the Trusts foresee no likelihood of an additional assessment for any of the past years.

Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Based on the best available information there is no liability at June 30, 2000.

New Hampshire Municipal Association Property-Liability Insurance Trust, Inc.

The NHMA-PLIT is a Trust organized to provide certain property and liability insurance coverages to member towns, cities, and other qualified political subdivisions of New Hampshire. As a member of the NHMA-PLIT, the Town shares in contributing to the cost of and receiving benefits from a self-insured pooled risk management program. The program includes a Self Insured Retention from which is paid up to $500,000 for each and every covered property, crime and/or liability loss that exceeds $1,000.

New Hampshire Worker's Compensation Fund

The Compensation Fund was organized to provide statutory worker's compensation coverage to member towns, cities, and other qualified political subdivisions of New Hampshire. The Trust is self-sustaining through annual member premiums and provides coverage for the statutorily required workers' compensation benefits and employer's liability coverage up to $1,000,000. The program includes a Loss Fund from which is paid up to $375,000 for each and every covered claim.

NOTE 4--CASH AND INVESTMENTS

The Town's investment policy for Governmental Fund Types requires that deposits and investments be made in New Hampshire based financial institutions that are participants in federal depository insurance programs. Deposits are limited to money market accounts, collateralized certificates of deposit and overnight repurchase agreements in accordance with New Hampshire State law (RSA 41:29) or the New Hampshire Public Deposit Investment Pool (NHPDIP). Responsibility for the investments of the Trust Funds is with the Board of Trustees, who have employed professional banking assistance in accordance with New Hampshire State law (RSA 31:38a)

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
June 30, 2000

At year end, the carrying amount of the Town's deposits, including restricted cash, was $12,163,900 and the bank balance was $13,315,715. Of the bank balance $12,477,226 was covered by federal depositary insurance or collateralized and $838,489 was uninsured and uncollateralized.

Investments are reported at fair value. The Town's investments are categorized to provide an indication of the level of risk assumed by the Town of Londonderry. Category 1 includes investments that are insured or registered or for which the securities are held by the Town or its agent in the Town's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the broker's or dealer's trust department or agent in the Town's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the broker or dealer, or by its trust department or agent but not in the Town's name.

	Category			Carrying
	1	2	3	Amount
U.S. Treasury Securities		$ 4,157,294		$ 4,157,294
U.S. Agency Securities		8,875		8,875
Corporate Bonds		212,050		212,050
Corporate Stocks		242,169		242,169
Foreign Bonds				-
	$ -	$ 4,620,388	$ -	4,620,388
Investment in New Hampshire Public Deposit Investment Pool (NHPDIP)				5,535,427

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
June 30, 2000

NOTE 6--EMPLOYEE RETIREMENT PLANS

Defined Benefit Pension Plan

Plan Description

The Town contributes to the New Hampshire Retirement System (NHRS), a cost-sharing multiple-employer defined benefit pension plan administered by the NHRS Board of Trustees. The plan provides service, disability, death and vested retirement allowances to plan members and beneficiaries. Benefit provisions are established and may be amended by the New Hampshire State legislature. The NHRS issues a publicly available financial report that includes financial statements and required supplementary information for NHRS. That report may be obtained by writing to New Hampshire Retirement System, 4 Chenell Drive, Concord, New Hampshire 03301.

Funding Policy

Covered public safety and general employees are required to contribute 9.3% or 5.0% of their covered salary, respectively, and the Town is required to contribute at an actuarially determined rate. The Town's contribution rates for the covered payroll of police officers, general and fire employees were 3.69%, 4.16% and 5.70%, respectively. The Town contributes 65% of the employer cost for police officers and fire employees and the State of New Hampshire contributes the remaining 35% of the employer cost. The Town contributes 100% of the employer cost for general employees of the Town. Amounts contributed by the State of New Hampshire are immaterial to these financial statements.

Under State law (RSA-100:16), plan member contribution rates are established and may be amended by the New Hampshire State legislature and employer contribution rates are determined by the NHRS Board of Trustees based on an actuarial valuation. The Town's contributions to the NHRS for the years ending June 30, 2000, 1999, and 1998 were $313,016, $250,013, and $250,914, respectively, equal to the required contributions for each year.

Deferred Compensation Plan

The Town sponsors a voluntary deferred compensation plan for all employees in accordance with Section 457 of the Internal Revenue Code. The plan permits participants to defer a portion of their salary that is not available to them until termination, retirement, death or unforeseen emergency. In accordance with generally accepted accounting principles, plan assets are not part of the Town's general purpose financial statements.

NOTE 7--GENERAL LONG-TERM OBLIGATIONS

Changes in Long-Term Obligations - The changes in long-term obligations for the year ended June 30, 2000 were as follows:

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)

Total General Obligation Bonds			$ 11,142,163

Capital Lease Obligations - represent lease agreements entered into for the financing of equipment acquisitions. These contracts are subject to cancellation should funds not be appropriated to meet payment obligations. Amounts are annually budgeted in applicable departments. Following is the present value of the individual capital leases at June 30, 2000:

Equipment, due in annual installments of $47,182, through 11/00 including interest at 5.8%	$ 44,596
Equipment, due in annual installments of $42,445, through 6/05 including interest at 5.81%	179,723
Equipment, due in annual installments of $29,332, through 4/03 including interest at 5.15%	79,655
Equipment, due in annual installments of $103,834 through July, 2003 including interest at 5.15%	366,911
	$670,885

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
June 30, 2000

Other Long-Term Obligations - These include $32,465 of obligations under an intergovernmental agreement as part of the Town's sewer project to reimburse the City of Manchester, New Hampshire for a pro-rata share of the wastewater treatment plant capital cost.

Summary of Debt Service Requirements to Maturity

The annual requirements to amortize outstanding long-term obligations as of June 30, 2000 including interest of $3,157,855 are as follows:

Year Ending June 30,	Debt	Capital Leases	Other	Total
2001	$ 1,940,587	$222,794	$ 7,086	$ 2,170,467
2002	1,607,739	175,612	6,645	1,789,996
2003	1,562,322	175,612	6,073	1,744,007
2004	1,516,489	146,279	5,393	1,668,161
2005	1,273,277	42,445	3,456	1,319,178
2006-2010	4,451,997		3,812	4,455,809
2011-2015	1,734,540			1,734,540
2016	121,210			121,210
	$ 14,208,161	$762,742	$ 32,465	$ 15,003,368

Authorized and Unissued Debt - The following debt was authorized and unissued as of June 30, 2000:

Description	Total Authorization
Sewer:	
Mammoth Road	$ 2,625,000
Auburn Road Water Line	49,600
Exit 4-A Construction	4,500,000
Auburn Road Landfill Site	900,000
	$ 8,074,600

Available Debt Margin

The Town is subject to State statue which limits debt outstanding to a percentage (dependent on purpose) of a valuation calculation made annually by the State. Debt incurred for sewer expansion and the Auburn Road Landfill Site is not included in the limitation calculations. As of June 30, 2000 the Town had an available debt margin of $134,131,369 for water and $32,248,417 for all other purposes.

June 30, 2000

NOTE 10--NON-EXPENDABLE TRUST FUNDS

The principal amounts of all non-expendable trust funds are restricted by law or specific terms of individual bequests in that only income earned may be expended. Principal and income balances at June 30, 2000 are:

	Principal	Income	Total
Cemeteries	$ 373,324	$ 86,758	$ 460,082
Libraries	7,617	2,571	10,188
School District	33,416	14,820	48,236
Welfare	3,917	2,854	6,771
Town	8,644	6,479	15,123
	$ 426,918	$ 113,482	$ 540,400

NOTE 11--UNRESERVED - DESIGNATED FUND BALANCE

Appropriations for certain projects and specific items not fully expended at year end are carried forward as continuing appropriations to the next year in which they supplement the appropriations of that year. At year end, continuing appropriations are reported as a component of fund balance. The functional components of unreserved-designated fund balance are as follows:

General Fund

Capital Outlay (Article 7, March, 1997 annual meeting)	$ 268,950

Expendable Trust Fund - The following balances are designated for subsequent years' expenditures at June 30, 2000:

Fire truck	$ 427,058
Highway heavy equipment	171,717
Ambulance	104,109
Highway trucks	123,487
Cemetery land	133,470
Eco-Park	212,079
	$ 1,171,920

NOTE 12--NON-MONETARY PERFORMANCE BONDS

The Town holds performance bonds from developers until projects have been completed to Town standards. Due to their nature certain bonds are not included as part of the financial statements. As of June 30, 2000, the additional bonds are comprised of the following:

TOWN OF LONDONDERRY, NEW HAMPSHIRE
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
June 30, 2000

Letters of credit	$ 1,494,125
Surety bonds	3,003,565
	$ 4,497,690

NOTE 13--MAJOR TAXPAYERS

The following are the five major taxpayers as they relate to the 1999 assessed property valuations of $1,205,762,606:

Taxpayer	1999 Property Valuation	Percentage of Total Valuation
Public Service of New Hampshire	$ 24,541,700	2.04%
Coca-Cola Bottling Co. of Northern New England Inc.	11,797,200	0.98%
Appletree Mall	9,010,000	0.75%
Individual taxpayer	8,468,600	0.70%
Pennichuck Utility	5,595,000	0.46%

NOTE 14--CONTINGENCIES

Federally Assisted Grant Programs

The Town participates in federally assisted grant programs. These programs are subject to financial and compliance audits by the grantors or their representatives. The amounts, if any, of expenditures which may be disallowed by the granting agency cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial

Other

There are various claims and suits pending against the Town that arise in the normal course of activities. In the opinion of legal counsel and management, the ultimate disposition of these various claims and suits would not have a material effect on the Town's financial position.

To the Town Council
Town of Londonderry, New Hampshire

We have audited the general purpose financial statements of the Town of Londonderry, New Hampshire as of and for the year ended June 30, 2000, and have issued our report thereon dated September 1, 2000.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

The management of the Town of Londonderry, New Hampshire is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of general purpose financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

In planning and performing our audit of the general purpose financial statements of the Town of Londonderry, New Hampshire for the year ended June 30, 2000, we obtained an understanding of the internal control structure. With respect to the internal control structure, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and we assessed control risk in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide an opinion on the internal control structure. Accordingly, we do not express such an opinion.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors and irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operation that we consider to be material weaknesses as defined above.

This report is intended for the information of management and the Town Council. However, this report is a matter of public record, and its distribution is not limited.

Vachon, Clukey & Co., PC

Town of Londonderry, N.H.

Town Office Department Reports

ASSESSOR'S REPORT

As I am writing this for the annual Town Report, we find ourselves with no permanent solution to the school funding issue. There are many legislative Representatives and Senators, along with the Governor, who are looking and working towards a solution. We will now have to wait and see what the State Supreme Court will do.

The Town of Londonderry has reviewed a decision on the Tyler Road Current Use case. The plaintiff argued that if land goes into current use as one lot, it should come out of current use as one lot. The Rockingham Superior Court agreed with the plaintiff, but the Town took it to the Supreme Court, and the decision was reversed. They said that the lot should come out as it does not qualify, and not how it was put into current use.

We have had another active year with approximately 145 new houses. The interest rates have fluctuated, the building market for both residential and commercial properties has been very busy.

The Town Council, through the recommendation from the Elder Affairs Committee, has increased the income and asset levels for the Elderly Exemption starting on April 1,2001. Please call our office at 432-1100, ext. 135 for more information.

Filing time for both the Elderly Exemption and the Veteran's Credit remains the same, April 1st to March 1st following the December tax bill. Persons applying for Current Use or Religious and Charitable exemptions must apply by April 15th each year. General information outlining the eligibility requirements for the various exemptions may be obtained in the Assessor's office.

Respectfully submitted,

Karen G. Marchant

BUILDING INSPECTOR/ HEALTH OFFICER'S REPORT

From January 1, 2000 to December 31, 2000 this office issued 785 building permits with an estimated cost of $55,543,774. The total fees for building permits was $284,706.75

A building permit is required for any alterations and/or completion to an existing building, the construction of any new building, or change of use of any existing building. An application for a building permit, in writing, shall be submitted with a sketch or plan of the proposed building or alterations. All construction will meet the requirements of the 1999 BOCA Basic/National Building Code as adopted by the Town.

With a total of 146 single family permits issued in 2000 and 125 single family permits issued in 1999, there has been an increase in this area. The estimated cost of construction per house for 2000 was approximately $154,888.00. The number of Certificates of Occupancy for single family dwellings was 122 in 2000 versus 141 in 1999. There were 11 permits issued for new buildings for Commercial/Industrial use, with an estimated cost of construction set at $14,291,088; and 76 permits issued for Commercial Industrial additions and alterations with an estimated cost of construction set at $12,852,790.

During the past year, the Cracker Barrel restaurant and the Sleep Inn hotel have been completed as well as several large buildings in the airport area such as Vneteck on North Wentworth Ave. and FCI on Aviation Park Drive. The Pedestrian Bridge is also near completion at the airport. The Home Depot site work on Rte. 102 has started and the new Osco Drug store at the Crossroads Mall is under construction. The Robie House on Mammoth Road is being remodeled into an office building while maintaining its Historical facade. The largest construction project that is active now is AES Power Plant in the northwest part of town..

On the following page is a breakdown of permits issued, fees collected and inspections performed in 2000. The total fees collected by this department in 2000 was $306,519.75. The information shows the different kinds of permits issued and inspections performed by the Building Department. The inspections are performed to verify compliance with applicable codes to ensure a safe building for the occupants. We ask for your support for this effort to protect the interest of our citizens and consumers.

Respectfully submitted,

James T. Smith
Building Inspector/Health & Zoning Officer

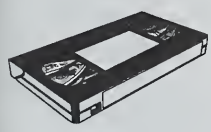
CABLE DEPARTMENT

The **Cable Department** is responsible for the oversight of the contract between the Town and Adelphia Communications. Subscribers should contact this department if they are unable to resolve issues directly with Adelphia. Call 432-1100 ext. 147.

Last year the Cable Department reported on the transfer from Harron Communications to Adelphia. I am pleased to report that the transition went smoothly and Adelphia has been moving forward to upgrade services and address the requests of the citizens specifically with regard to Internet Access and elimination of cable convertor boxes. By the end of 2001, we anticipate that the entire cable plant will be converted to fiber optics and many more services state-of-the-art services will be available to the residents of Londonderry.



The Cable Department also oversees the PEG (public, educational and governmental) access channels and the Londonderry Access Center. **CTV-20**, public access, is the result of the efforts of community volunteers who decide what programs to produce and what events to cover. Producers must be members of the community and training is available. **ETV-51**, educational access, is both a public forum for educational issues and a means by which teachers and students can utilize this technology in the classroom. **GOV-52**, governmental access, continues to provide live, gavel-to-gavel coverage of Town boards and committees.

The Londonderry Access Center (LAC), the production facility for the PEG channels, opened its doors for business in November at 281 Mammoth Road. With the capability of simultaneous use by multiple users, we anticipate very high usage by residents and students in the coming months and years. Please call the LAC for information on training or drop in for a "tour".

The **I-LOOP (institutional network),** provided through the original cable contract, will continue to be maintained for the Town by Adelphia throughout the current franchise. This is a very useful tool for the Town and schools. Every public building is connected to the I-LOOP creating a indispensable and economical means of networking. In the year 2001, Adelphia will be upgrading the I-LOOP to fiber-optics and will also be providing the Town and School District with the capability of connecting to the Internet at no charge to the taxpayers.

Dottie Grover
Cable Coordinator

FAMILY MEDIATION

Conflicts are a part of life, and as every parent and teen knows, a normal part of family life, too. At times, parent-child conflict can become quite disruptive and upsetting to both parties. Frequent family arguments, tension between siblings, failure to follow family rules, absences from school or missed time at work, running away and involvement with police and courts are some of the issues that frequently accompany serious tensions in families. On the other hand, when family conflict is resolved cooperatively, the process helps parents and teens to work together to build trust, improve communication and develop problem solving skills. For the past 14 years, the Londonderry Family Mediation Program has been there to assist Londonderry Families in the process of resolving parent-child conflicts.

Mediation works to improve communication, formulate solutions and develop problem solving skills. Volunteer mediators serve as a neutral third party to help family members discuss the issues and find their own solutions to the conflict. Parent-child mediation offers families a cost-free, confidential opportunity to confront the challenges they face. At the same time, it provides the community with an effective alternative that may minimize the need for more extensive and costly services of courts, police, fire personnel and student support services.

The program is proud of its dedicated and impressive group of volunteer mediators and grateful for their years of service. Experienced mediators continue to increase their skills and effectiveness through supervision, by attending workshops and the annual state wide Mediators' Conference.

The Mediation Program continues to be involved in community prevention and education programs. Over the past several years, we have provided Conflict Resolution Workshops to many 5th grade classes in Londonderry. Through these workshop students learn important skills for improved communication and non-violent conflict resolution which serves them well in both peer interactions and in their family relationships. Parents of the students were also invited to attend. The program also works to promote positive conflict resolution in the community through its involvement with the Safe and Drug Free Schools Committee. In cooperation with the Londonderry Family Network and the UNH Cooperative Extension Program, we also offered a four-part workshop on Parenting the Adolescent. The Family Mediation Program continues to utilize and develop opportunities to assist Londonderry families in their efforts to smoothly negotiate parent-child conflict.

Lynn Cina
Program Coordinator

FIRE/RESCUE DEPARTMENT

Emergency Line 911
Fire Department Business Line 432-1125

In 2000, the Fire Department responded to 2,459 calls for assistance, a 4% increase from 1999.

In accordance with our three year staffing plan, we have hired three firefighters as the second phase of that plan. The proposed 2001/02 budget includes implementation of the last phase of the plan by hiring three firefighters.

Currently, the code enforcement division has a staffing level of one, the fire marshal. Comparable communities of our size staff the code enforcement division with at least two, and in many cases three personnel. The growth of the community has dictated that the fire marshal concentrate on new construction thus precluding him from carrying out inspections of exiting occupancies. Included in the 2001/02 budget request is the addition of a fire inspectors position to address the inspection of existing occupancies.

Last summer, we received a 1983 military surplus cargo truck with low mileage through the US Department of Agriculture's program of surplus property assistance for use in forest fire fighting. No commercial vehicle we could purchase is as ruggedly built or adaptable for this purpose. It was converted for forest fire use by the addition of a water tank, a pump, tools, equipment, painting, and the installation of radio and warning light equipment. Much of the work was performed by our own personnel. For their effort I publicly thank them. Thanks also to Gladstone Ford, who donated paint and painting supplies, The House of the Samurai who donated the lettering, and Hampshire Fire Protection, who donated fittings and piping. The town's financial investment in the truck is $35,000. I estimate that to purchase anything comparable commercially would cost over $100,000.

Your Fire and Rescue Department is committed to providing the best possible customer service we can.

Respectfully submitted,

Chief Alan J. Sypek

To aid your Forest Fire Warden, Fire Department and State Forest Ranger, contact your local Warden or Fire Department to find out if a permit is required before doing ANY outside burning. By local ordinance and fire codes, fire permits are required for any open burning in Londonderry.

There are eleven Forest Rangers who work for the New Hampshire Division of Forests and Lands, Forest Protection Bureau. Forest Rangers have investigated numerous complaints regarding violations of the timber harvest and forest fire laws, and taken enforcement action to ensure compliance. If you have any questions regarding forest fire or timber harvest laws, please call our office at 271-2217, or for general information, visit our website at www.dred.state.nh.us.

There are 2,200 Forest Fire Wardens and Deputy Forest Fire Wardens throughout the state. Each town has a Forest Fire Warden and several Deputy Wardens who assist the Forest Rangers with forest fire suppression, prevention, and law enforcement. The number of fires reported during the 2000 fire season was below average. Despite this, our network of fire towers and detection patrols were still quite busy with the fire towers being first to report over 135 fires. These fires were quickly and accurately reported to the to the local fire department for their prompt and effective suppression efforts. Homeowners can help protect their structures by maintaining adequate green space around them and making sure that houses are properly identified with street numbers.

The State of New Hampshire operates 15 fire towers, 2 mobile patrols and 3 contract aircraft patrols. This early detection and reports from citizens aid in the quick response from local fire departments. This is a critical factor in controlling the size of wild land fires and keeping the loss of property and suppression costs as low as possible.

Londonderry is now a signatory to a statewide forest fire mutual aid agreement, which allows us to purchase forestry tools and equipment at the same prices as the US Department of Agriculture, Forest Fire Service. Likewise, our new forest fire vehicle was obtained thanks to the New Hampshire Forest Protection Bureau.

Please contact your local fire department before doing **ANY** outside burning.

REMEMBER ONLY YOU CAN PREVENT FOREST FIRES!!

LEACH LIBRARY DIRECTOR'S REPORT

Photo By Ken Joudrey

The year 2000 was an extraordinarily active one at the Leach Library. Circulation increased by 3.8%, reference activity increased by 17%, interlibrary loans increased by 24%, new materials added increased by 25% and children's programming increased by 45%. During July and August, we had 1,239 children and teens read 19,915 books! We registered 1,675 new borrowers during the year and had a grand total of 15,604 borrowers as of December 31, 2000. The Leach Library has finally blossomed!

The library was very fortunate to receive so much support from the Londonderry community in so many different ways. Many individuals donated both new and used books to our collection (1,200 of them); some local businesses, organizations and individuals gave the library very nice donations and memorial gift books; the Londonderry Middle School in partnership with the Londonderry Lions Club presented the library with an Optelec magnifier machine; and the ever benevolent Mr. Henry B. Poole, Jr also contributed. We appreciate the generosity of Londonderry residents in helping to make our library grow. One kind donor accompanied his donation with a brief note of thanks including these kind words in his note:

"Londonderry is fortunate to have not only a beautiful library, but also a dedicated staff"

Staffing of the library, particularly at the professional level, continues to be a challenge. The library profession as a whole is currently faced with a shrinking work force due to massive retirements and a shortage of new librarians entering the field. Therefore, we have a much smaller labor pool — and a highly competitive market. Many librarians are being wooed by the private sector and public libraries cannot compete with their salaries or benefits. I am very concerned about Leach Library's ability to attract and retain professional librarians – a problem we've been wrestling with for the past three years.

Gayle Tudisco, formerly Head of Reference Services, returned to Leach Library as Head of Children's Services in February only to leave us once again in October for a library position in the private sector. As a result, our Head of Children's Services remained open for three months. Nancy Keane, Children's Library Technician, left us in April and her position was filled in May by Erika Finnegan who had just graduated from the University of New Hampshire, Manchester. Kelley Swan, also a University of New Hampshire graduate, joined us in May on a part-time basis to fill some of the hours vacated earlier by Arlene Hicks. We are very pleased to have Erika and Kelley join the library staff.

LEACH LIBRARY DIRECTOR'S REPORT (Cont'd)

In addition to our eighteen very dedicated staff members, most of whom are part-time, we are fortunate to have ten regular volunteers committed to providing good library service. Without these dedicated individuals we would not be able to offer as many services as we currently do. We are indebted to their commitment to the Leach Library and greatly appreciate their hours of volunteer service.

The Museum Pass Program continues to be very popular and well utilized. The library offers passes to the Children's Museum, Christa McAuliffe Planetarium, Currier Gallery of Art, Museum of Science, Science Enrichment Encounter (SEE) and Squam Lakes Natural Science Center. Passes are made available through Mr. Henry B. Poole, Jr., user donations and the Leach Library Board of Trustees.

I look forward to my seventh year of library service to the Town of Londonderry. In the past year, I have had the privilege of working with library staff whose professionalism and dedication endured throughout the year, despite the trying times. It is a pleasure to work with our Board of Library Trustees, dedicated volunteers, and Londonderry's School and Town officials. Together we have developed an exceptional public library for all of Londonderry's residents to enjoy. To them and to all of the Town's residents who have lent me their support throughout these past six years, I extend my heartfelt gratitude.

Respectfully submitted,

Shirley A. Barron

INFORMATION TECHNOLOGIES (IT)

With a full time person on board, we began to utilize the full capacity of the I-loop, plan and test system upgrades and enhancements, and coordinate with the School District regarding the direction of systems and purchasing of software and hardware in the future. In addition to coordination, since both governments now have full time tech support, each unit should benefit especially when systems crash or vacations and sick time interfere with critical system or workstation support.

The IT Department is supporting a proposal for a needs analysis to determine the Town's requirements for a GIS program. It is expected that the study will look at how GIS (Geographical Information Systems) would be utilized by all departments, board and committees. The study should also address the cost of developing a GIS program as well as the cost of maintaining it moving forward.

Down the road, we see the State of New Hampshire beginning to develop some policies regarding the collection of information or data, and fees that the Towns collection on behalf of the State. Currently, the State is holding working to develop an infrastructure to support the varied and many State offices and agencies and does not appear to have time at this point to have time to develop systems for local government. However, we will continue to monitor their progress to insure a smooth working relationship between the Town and the various State agencies with whom we interface.

Over the last several months, officials and employees of the Town Office, Town Council, School District and Web-Sites.com developed a new Londonderry web page. *(www.Londonderry.org)* Among the many areas we continue to explore is that of online information retrieval. In that regard, we will continue to work with our software vendors and others to develop processes where information presently housed at the Town Office could be made available to the public via the Internet.

The IT Department wishes to express its gratitude to all of the Department Heads and employees of the Town and Library for the cooperation and assistance rendered throughout the year. Trying to keep our growing network of computer systems functional is a major task and we are grateful for the support that has been provided.

Respectfully submitted,

William R. Stewart
IT Coordinator

PLANNING & ECONOMIC DEVELOPMENT

It is amazing to me that a year has gone by so quickly. Last year at this time, I was writing to introduce myself to the people of Londonderry as your new Director of Planning & Economic Development. Given the extremely high activity level in the Planning and Economic Development Department it is no wonder why time appeared to have moved so fast.

I did manage to slow down long enough to hire a new assistant planner, Tim Thompson. Tim previously worked for the City of Rochester, NH as a planner. Back in 1996, while attending Ball State University, Tim interned in Londonderry under my predecessor Peter Lowitt. Tim was responsible for writing Londonderry's award winning wireless communications ordinance. I'm very happy that Tim decided to join the team.

The airport access road remains one of the department's primary projects. Londonderry's involvement in the access road project is to present to the Department of Transportation (DOT) a acceptable connection to the access road. Pettingill Road is the means by which Londonderry will connect onto the access road. Pettingill Road is presently a class VI road that is surrounded by approximately 800 acres of industrially zoned land. The potential job creation and tax revenue that could be derived from the development of this area could be extremely positive for the taxpayers and residents of Londonderry. My department is presently working with the landowners, airport, DOT and Town officials in formulating the best and viable roadway alternative for Londonderry.

In last year's report, I mentioned that the Planning and Economic Development Department will continue to work on implementing the goals of the 1997 Master Plan. One of the goals was to implement the Open Space Preservation Program. The Planning and Economic Development Department, on behalf of the Town, submitted an application for Farmland Protection Program funds for a portion of the Sunnycrest Farm. Londonderry was successful in receiving a grant in the amount of $21,000 to be used towards purchasing a conservation easement on a portion of the farm. The Town was successful in the past in receiving Farmland Protection funds towards the purchase of a conservation easement on Mack's Apple Farm. The Department will continue to seek grant funds to assist Londonderry in its effort to preserve open space.

Revised subdivision regulations were also adopted on March 1, 2000 by the Planning Board in accordance with the recommendations of the Master Plan. Staff is currently working on updating the growth management ordinance and the site plan regulations. The proposed site plan regulations will attempt to implement architectural design control standards for commercial and industrial projects. The Planning Board and staff is also working on a wetlands ordinance that would provide buffers around wetlands ½ acre or greater in size. The initial draft of the ordinance was defeated at a September 2000 public hearing in which 400 + residents and property owners were in attendance. The Planning Board and staff will attempt to bring forward another draft, learning from the input received from the previous proposal, of the wetland ordinance for citizen input and adoption early 2001.

PLANNING & ECONOMIC DEVELOPMENT (Cont'd)

The Department continues to provide staff support to the Planning Board, Economic Development Committee, Capital Improvements Program (CIP) Committee, and other boards and departments as requested. Regular Planning related activities includes management of the development review process, and Long Range Planning Services includes Master Plan revision, ordinance and regulatory changes, growth management, capital improvement program (CIP) and impact fees. On the Economic Development side of the ledger staff functions include Business Retention Services and Business Attraction Programs. Both functions are geared towards the growth and diversification of the community's tax base. Pursuant to those functions, 2000 was another very successful year for economic development with **614,623 SF** of new industrial and commercial buildings being approved by the Planning Board. This is a 50% increase over last year's total of 400,000SF.

New Hampshire's robust economy played a large part in Londonderry's success over the last several years in the establishment of new commercial and industrial businesses. The other part of Londonderry's economic development success can be summed up in three words: Location, Location , Location. Londonderry being just 45 minutes from Boston, 10 minutes from Nashua and 5 minutes from the Manchester airport and having a highly educated workforce, top notch school system and a strong commitment to quality of life issues makes this Town very appealing to potential commercial and industrial developers.

I look forward to the challenges that lay ahead in the year 2001. I thank the Planning Board and the other boards and committees for volunteering their time, knowledge and energy on behalf on community. Lastly, I thank my staff, Kay Webber and Tim Thompson, for all of their time, effort and assistance throughout the year. Unfortunately, as of May of 2001, after 21 years of service to the Town of Londonderry, Kay Webber has decided it's time to retire. We wish Kay all the best in her retirement. Her knowledge, wisdom and sense of humor will be greatly missed.

Sincerely,

André L. Garron
Director of Planning & Economic Development

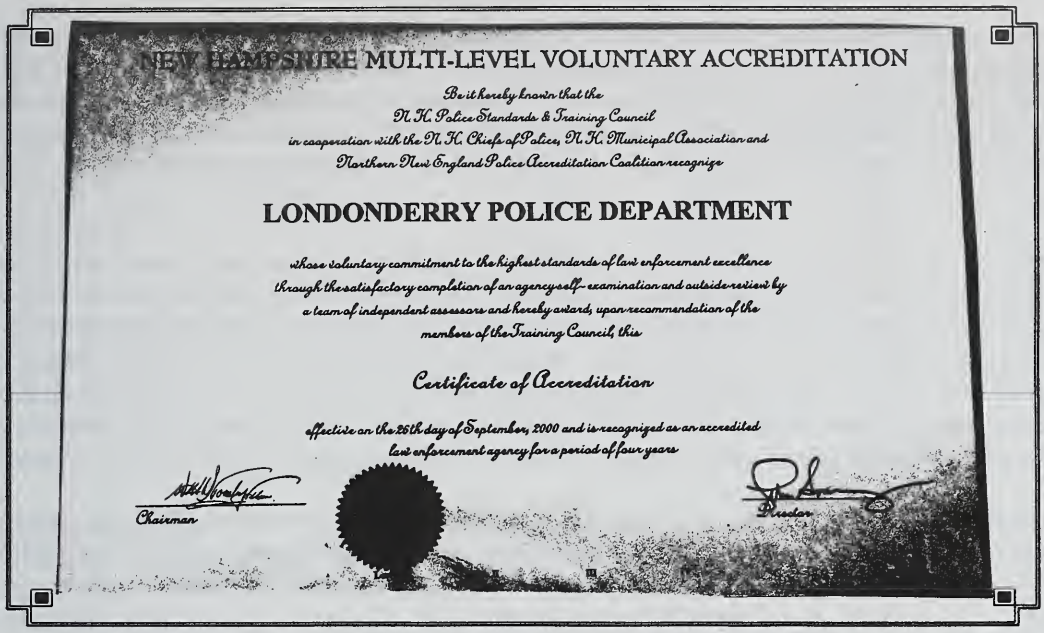
POLICE DEPARTMENT



NEW HAMPSHIRE MULTI-LEVEL VOLUNTARY ACCREDITATION

Be it hereby known that the
N.H. Police Standards & Training Council
in cooperation with the N.H. Chiefs of Police, N.H. Municipal Association and
Northern New England Police Accreditation Coalition recognize

LONDONDERRY POLICE DEPARTMENT

whose voluntary commitment to the highest standards of law enforcement excellence
through the satisfactory completion of an agency self-examination and outside review by
a team of independent assessors and hereby award, upon recommendation of the
members of the Training Council, this

Certificate of Accreditation

effective on the 26th day of September, 2000 and is recognized as an accredited
law enforcement agency for a period of four years

Chairman

Director

Londonderry Police Department State Accreditation Certificate

The year two thousand was a positive year for the Londonderry Police Department and its' relationship with the community of Londonderry. During the year the department achieved Level 1 Accreditation within the State of New Hampshire. The review by officials of the Department's policies, procedures and practices resulted in State Accreditation for the Town's Police Department. This is a clear statement of the high level of Police Professionalism that the community is receiving.

During the year men and women of the Department, working together with the public, dealt with many safety issues and concerns. On several occasions, community involvement proved beneficial in preventing, solving and deterring criminal activity in our community. This partnership between the community and its Police Agency is an essential part of Community Policing and the benefit it brings to improving the quality of life. Safety on our roadways within the community is of great concern. Within the past year we have experienced an increase in the number of motor vehicle accidents, with unfortunately a high number resulting in fatalities. The department has attempted to increase enforcement in an effort to decrease accidents. This effort often times falls short of the desired outcome due to lack of adequate staffing and the large growth in vehicle traffic within the community. The requested budget begins to address these staffing concerns within the department. Additionally we have projected staffing requirements for the next three years to meet a basic population to staffing ratio.

POLICE DEPARTMENT (Contd.)

The community continues to be negatively affected by the deficiencies with the Town's police facility. This Capital Improvement issue continues to be identified by the Department as a priority, but has made little progress. In this years Capital Improvements Budget Plan there is a request for monies to complete a detailed Architectural design for a facility. This funding if approved will be used to help determine an accurate cost of a new facility. I will continue to attempt to resolve this matter which has been both time consuming and frustrating.

The Police Department, together with the Derry, Windham, Hudson and Salem Police Departments, established the Southern NH Regional Special Operations Unit. (SNHRSOU). This unit is trained in the effective response to crisis and high risk situations. The Unit has been training for an extended period of time and is the first such regional unit in the State of New Hampshire. The unit has been used on several occasions within the Town of Londonderry most recently during a high risk search warrant entry at a residence used for illegal drug trafficking. These efforts, combined with those of the School Resource Officer, Dare Officer, Juvenile Officer and the continuous dedication of the Patrol Officers, help to provide a safer environment for our children and the community.

Finally, on behalf of the men and women of the Londonderry Police Department, I would again like to thank the citizens of Londonderry for their support of the employees of the Department and for the recognition of their efforts. I am proud of our agency and the cost effective and quality service we provide.

Sincerely,

Joseph B. Ryan
Chief of Police

PUBLIC WORKS DEPARTMENT

~~Highway & Engineering Division~~

In 2000, the Public Works Department, in an effort to fulfill its responsibility to maintain the Town's roadways and other supporting infrastructure, rehabilitated or resurfaced approximately 32,000 LF of roads. Reconstruction of Kimball Road is started last summer and will be completed in the year 2001. Drainage problems were corrected at several locations throughout the Town.

The Department was also productive in completing seasonal maintenance projects. We applied approximately 4,917 gallons of crack sealant to prevent rapid deterioration of our paved roadways. Street signs were replaced and roads were properly marked and striped to provide safe conditions for motorists and pedestrians traveling our streets. The Department also managed the growth of trees, grass and brush along roads and streets throughout the community.

General maintenance was performed on all equipment including sandblasting and painting of sand/salt spreaders and plows. The Department responded to 18 winter storms, removing snow and ice from the roadways and applying a salt/sand mixture.

Furthermore, the Department continued to assist various Town Departments with different projects throughout the year. The Department, with the assistance of private engineering consultants, provided engineering reviews of forty five (45) site and subdivision projects for the Planing Board. Also, all active construction sites continue to be inspected by the Department for compliance with Town standards.

The Department purchased one new six wheel truck with a clam bucket. With the new equipment, we increased our productivity on roadway drainage maintenance.

Respectively submitted,

Janusz Czyzowski, P.E.
Director of Public Works & Engineering

DEPARTMENT OF PUBLIC WORKS

~Sewer Division~

The Sewer Division's Continuous Mission is to expand and maintain the public sewer infrastructure; provide environmentally friendly sewage disposal alternatives; protect our receiving waters by providing wastewater treatment; stimulate commercial/industrial growth and expand the tax base; regulate industrial user discharges; and to support Sewer Division operations entirely from users fees without tax support. The Sewer Advisory Committee is composed of interested Town residents who meet monthly to consider sewer programs and infrastructure planning. The Sewer Division and the Committee meet every month to review capital improvement projects, new construction, and related sewer issues. The Committee makes recommendations relating to new sewer development and programs important to the Town.

Currently, ten (10) industrial users are regulated under the Pretreatment Program. This program provides for the systematic permitting and monitoring of industrial facilities discharging into the public sewer system. The control of industrial waste streams is necessary to prevent possible adverse impacts to treatment centers and prevent pollution of our natural water bodies. This year, our regulated users have achieved 100% compliance with the Pretreatment Program. The Town has a continuous program with certain Industries to control organic loading in the system. This year a sampling study was conducted to develop a baseline of current waste stream characteristics which will help the Division evaluate the impact of new industrial users of the public system.

Regular sewer maintenance activities include the operation and maintenance of three pumping stations and twenty five miles (25) of collection system. Preventive maintenance activities are necessary to assure uninterrupted public service and reduce risks to property damages. The pumping stations are inspected every week and have scheduled maintenance performed at recommended intervals. Londonderry's waste flows are regularly sampled to check for harmful pollutants and toxic wastes. Odor control measures are used to reduce nuisance odors during the warm summer months.

As reported last year, the design phase to build Phase II of the South Londonderry Interceptors has been completed. The project was designed not to have any tax impact on Londonderry residents because construction funding was conceived to come from private developers. However, construction of the project is still stalled due to lack of funding. Public interest appears to be growing to build the project.

The warrant article to expand sewer service along the Mammoth Road corridor from North Londonderry to Pillsbury Road was approved. The project is currently in design and expected to be completed late in 2002. Public sewer service for the schools will soon be a reality and will eliminate costly maintenance and septic problems.

DEPARTMENT OF PUBLIC WORKS (Cont'd)

~Sewer Division~

New sewer construction was completed around the Airport to accommodate the construction of a taxiway and bridge. The construction was paid for by the Airport and resulted in some significant improvement in the public system. In particular, the installation of 1400 feet of new 12 inch sewer has replaced very old leaking clay sewer pipe. Also noteworthy is the new construction of 20 inch sewer which will extend the public system by some 3,000 feet from North Wentworth Road to Pettengill Road.

The Sewer Advisory Committee and Sewer Division takes this opportunity to thank all the Town Departments and Londonderry residents who have supported the Sewer Division's mission of sound infrastructure development and responsible municipal sewer services. The public is welcome to attend the Committee's regular meetings held on the first Thursday of each month.

Respectfully Submitted,

G. Tendler

LONDONDERRY
RECYCLES

PUBLIC WORKS DEPARTMENT

~Solid Waste/Recycling Division~

Last September, and with great regret, we accept Liz Todd's resignation. Liz decided to pursue a career and opportunities within a different field of employment. She served as Londonderry's Solid Waste Coordinator for the last six years. Liz dedicated her soul and a lot of extra time to the cause of recycling and protecting the environment. We miss her very much.

Over the last four years, trash tonnages have increased an average of 4% per year and recycling an average of 3.5%. Disposal continues to be an increasing problem with the closure of unlined landfills in New Hampshire, leaving the State with limited capacity and rising disposal costs.

Education continues to be a priority for the Solid Waste Division. The Master Recycler Program, Londonderry's ***Buried Treasure*** waste reduction guide and the four issues of the Londonderry Recycling News provide education to residents of Londonderry along with businesses and multi-family units on waste reduction and recycling. Additional educational outreach includes all the Londonderry schools, Girl Scouts, and Boy Scouts for both America Recycles Day in November and our biggest event, the Earth Day Expo in April. Other public events are the household hazardous waste days, Olde Home days and waste oil collection days.

Londonderry's Public Works Department has finished the two year project to develop an Environmental Management System or EMS. As a division of the Public Works Department, Solid Waste and Recycling is implementing four environmental management programs. These programs are to ensure the environmental quality of the Solid Waste Divisions operations and services.

Respectfully submitted,

Janusz Czyzowski, Director
Public Works and Engineering

SUPERVISORS OF THE CHECKLIST

Voter registration continues to increase steadily. Election day registration has been helpful to new voters. Several assistants to the supervisors helped process approximately 1,200 new voters during the Presidential Primary and the General Election.

We are fortunate to have many experienced ballot clerks to check voters in and minimize inconvenience for everyone. Some check-in stations appeared to have longer lines at the General Election and we are looking at ways to change the current configuration.

Being able to change party after voting has been well received. Party changes can also be made any time at the Town Clerk's Office, except for ten weeks prior to any primary election.

Our goal is to make the voter registration process as convenient as possible while maintaining the accuracy and integrity of the voter list. We are available at Town Hall evenings and Saturdays ten days prior to elections to register voters and change parties, names or addresses so you will not have to wait in line to do so on election days. These times are always published in area newspapers prior to our availability.

There is always a recent voter list on the counter at the Town Clerk's Office. Any errors found with your registration can easily be corrected through the Town Clerk. We would appreciate your taking the time to do so.

As of the General Election in November, there were 6,477 Republicans, 3,670 Democrats, and 5,999 Independents, for a total of 16,146 registered voters in Londonderry. This is an increase of approximately 2,000 new voters since last year.

Anyone registering to vote should bring a photo ID, proof of citizenship, such as a birth certificate, passport or naturalization papers and proof of residency.

Geraldine M. VanGrevenhof, Chairman

Deborah A. Currier
Marlene Thompson

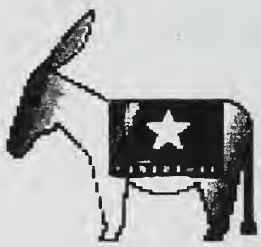
TOWN CLERK/TAX COLLECTOR

The Conservation Plates (Moose Plates) are now available. You may obtain the Conservation Plate only at the time of renewal or if you are purchasing a new vehicle with new plates.

There has been no update from the State of NH Motor Vehicle Department as to when the motorcycle or trailer plates will be available. We will continue to mail registration renewal notices and we hope that the number of residents that will renew through the mail will increase.

All dogs must be licensed by May 31st of each year to avoid a fine. State law requires the Town Clerk to see a valid rabies certificate plus proof of neutering or spaying. We are now receiving copies of rabies certificates from the veterinarians, and upon receiving them, check to verify that the dog is registered in our system. If not, the owner will be notified by mail to register his dog and if it is not registered within the allotted time they are in violation of RSA 466:1 and a $25.00 civil forfeiture will be issued. An additional $1.00 per month is charged for registrations completed after June 1st. Londonderry has a dog ordinance which requires your pet to be in your control at all times.

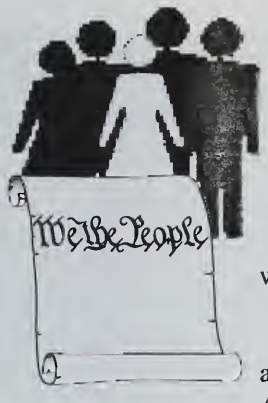
If you have not registered to vote and wish to do so, you may come to our office with a copy of your birth record, a passport or citizenship papers <u>and</u> proof of residency during our regular business hours, or register with the Supervisors during their posted sessions.



Respectfully submitted,

Marguerite A. Seymour

Marguerite (Meg) Seymour
Appointed Town Clerk/Tax Collector



TOWN COUNCIL

I am proud and pleased to report to you that the year two thousand was a busy one for the Town Council.

While it is impossible to recognize all of them, it has been gratifying for me as Town Council chairman to participate in ground breaking ceremonies for the new distribution center for FCI, Inc., located off Harvey Road, and to join in welcoming new air carriers to the Manchester Airport.

Over the past twelve months, the Town Council has focused its energies in a number of areas. Working with the Londonderry Housing and Redevelopment Authority and the New Hampshire Department of Environmental Services, we have been successful in transforming a piece of environmentally soiled property near the airport into a productive site that will bring hundreds of thousands of dollars to the Town in motor vehicle permit fees. What once was the Lamont Labs property, soiled by chemical spills and heavily damaged by fire, will soon become the regional headquarters for Enterprise Auto Rentals, Inc. We want to thank all who were involved in the cleanup effort and for negotiating an agreement that works for Enterprise as well as the Town. This is truly a win-win situation for all parties.

The Town Council was also heavily involved in identifying community needs as reflected in the Town's Capital Improvements Program. In addition to spending hours studying how best to utilize the Town's resources in developing recreational facilities along West Road, the Council recognized the need to begin the process of addressing deficiencies in the police facility on Mammoth Road and at the South Fire Station located on Rt. 102 a short distance from the intersection of Rt. 128, or Mammoth Road. As a result of those many discussions, voters at the polls on March 13, 2001, will have an opportunity to express their support for these projects. The Council, working with the Budget Committee, has determined that these needs are best met through the issuance of bonds which significantly reduced the impact on taxpayers by spreading the cost over the next twenty years.

A new project loomed on the radar screen, that being the need to construct a connector linking Harvey Road to the planned Airport Access Road. Preliminary engineering work has begun to determine the proper route for the roadway which has the potential of providing access to the Town's industrial lands south of the airport and providing a direct route to the F.E. Everett Turnpike for businesses and residents alike. While we do not yet know the final cost of the project, a place holder has been placed in the CIP for construction, in about three years, of this important piece of roadway.

The Council has continued its ongoing dialogue with the Manchester Airport and I wish to thank Airport Director Kevin Dillon for making himself available for several discussions where he answered questions from citizens concerned about the rapid expansion of the airport. While we may not have been happy with all of the answers, we were able to provide a forum where the citizenry and the airport could exchange information and seek information about mutual concerns. Of major importance is noise generated by takeoffs and landings at the airport and, based on information provided by Airport Director Dillon, we

TOWN COUNCIL (Cont'd)

have filed requests with the Federal Aviation Administration asking that noise contours surrounding the airport be revised making more Londonderry homes eligible for Federally funded soundproofing programs. And, we have asked the FAA to allocate more dollars for such programs.

Town Council members have devoted many hours to meetings with the State Department of Transportation and its plans for the widening of Interstate 93. We need to understand fully the impact of this project on our community. We have also been involved, along with officials from the Town of Derry in studying the feasibility of a new interchange on I-93. Exit 4A would link I-93 to Route 28 in Derry at Ross' Corner alleviating traffic congestion in Derry's downtown area. The project could have other benefits including improved traffic flow at Exit 4 which could forestall major reconstruction of that interchange for at least the foreseeable future. Londonderry residents need to keep on top of these major projects to fully understand their impact on the Town.

Over the past several months, the Council has been involved with plans by the Tennessee Gas Pipeline Co., to place a new twenty inch line through the community to service an electricity generating facility under construction by AES Granite Ridge south of the airport. While the efforts of ourselves and the School District have brought both praise and criticism, our objective is make certain that the pipeline, which passes very close to our schools, is made as safe as possible. To that end, we have retained legal counsel and consultants to obtain assurances that the pipeline will not place our children harms way. We have also taken steps to ensure that AES will live up to commitments and promises made to the Town and to the State's Energy Facility Site Evaluation Committee relative to the payment of taxes, sale of electricity, and other issues.

Preparation of the annual budget and the warrant for Town Meeting presents its own set of challenges and requires many grueling hours of discussion, analysis, documentation before a decision is reached. Working with the Budget Committee, I believe that we have agreed on a budget document that meets the needs of the Town without overburdening the taxpayers. These are important issues and I, along with other Town Councilors, urge all voters to make their wishes known by casting their ballots on Tuesday, March 13th, and attending Town Meeting on Saturday, March 17th. See you there.

Respectfully submitted,

Andrew Greco - Chairman
Larry B. O'Neill - Vice Chairman
Mark Oswald - Councilor
Martin Bove - Councilor
David Wallace - Councilor

TOWN MANAGER'S REPORT

Each new year presents its unique set of problems, opportunities and changes. The year two thousand was no exception.

Like most of the rest of the world, we began the year fearing the worst from the "Y2K Bug". Perhaps due to the extensive preparation, the Y2K bug failed to have an impact. Computers continued to function, cars started, traffic lights operated as usual, and the world went about its business. But, changes were in the wind and nowhere was that more evident than at the Town Office where a number of employees opted to seek other opportunities. Leading that parade was veteran Town Clerk/Tax Collector Joan Savina. She was replaced by Marguerite "Meg" Seymour who was selected in May to fill the position until the next election.

Elizabeth Todd, who had served the Town for a number of years as our Solid Waste and Recycling Coordinator, left to seek employment in the private sector. Dan Ouellet left the Public Works Department to fulfill a military obligation but informed us he would seek employment in the private sector upon his return.

In early August, Finance Director Peter Curro left to become the Business Administrator of the Londonderry School District. We also accepted the resignation, in November, of Town Accountant Melissa Mitrook who accepted a similar position in Massachusetts. We wish them well and thank them for their dedicated service to the Town.

Working on our own and with an outside consultant, we began the task of seeking qualified individuals to fill the positions in the Finance Department. In early December, we selected Susan Hickey of Bedford to fill the position of Finance Director. She brings to us strong auditing and accounting skills and had previously served in a similar capacity in Goffstown. A few weeks later, Lynne Wagner of Londonderry was chosen to fill the position of Town Accountant. Like Mrs. Hickey, she brings to the Town an extensive private sector accounting background.

Together with the turnover in employees, was there anything else going on? Yes! There were plenty of issues to be dealt with, many of them involving the expansion of transportation facilities all around us. In addition to a growing regional airport to the north, we became involved in the expansion of Interstate 93 to the east and began planning for the construction of a link to the F.E. Everett Turnpike to our west. And we continued to work with the Town of Derry to study the feasibility of constructing a new interchange off I-93 (Exit 4A) approximately one and one half miles north of Exit 4.

TOWN MANAGER'S REPORT (Cont'd)

While all of these projects are important, I would like to take a moment to address two of them---the expansion of I-93 and the planned construction of the Airport Access Road linking the F.E. Everett Turnpike with the Manchester Airport. The New Hampshire Department of Transportation has agreed to allow Londonderry two points of access as that highway approaches the airport. One interchange will be at South Perimeter Road for Londonderry traffic going to the airport and the other in the vicinity of Pettingill Road. At the present time, Pettingill Road is little more than a sandy trail bisecting the industrial lands south of the airport. However, given that Londonderry still has the largest contiguous block of industrial land left in southern New Hampshire, we firmly believe that construction of a roadway to link that area to the Everett Turnpike will enhance further economic growth and provide a welcome link to the west for Londonderry residents and businesses.

We are actively involved in the I-93 project to monitor its impact on Londonderry. Project Manager Jeff Brillhart (NHDOT) has stated on several occasions that this is likely the last time that I-93 will be widened. The rationale for that statement is that the cost of acquiring additional right of way is getting extremely expensive. Accordingly, the Department is looking into High Occupancy Vehicle (HOV) lanes, more Park and Ride facilities for the buses that travel to and from the Boston area as well as the possibility of constructing a "light rail" system within the highway corridor. We urge all citizens to stay informed about plans for the widening project to determine its impact on Londonderry. Once again, we believe the answer is in "multi-modal" use of the highway corridor---passenger vehicles, buses.....and trains.

At the Manchester Airport, plans to lengthen the North-South Runway will mean filling of South Perimeter Road. Based on agreements reached several years ago, the airport cannot close South Perimeter Road until an acceptable alternate route has been provided. Accordingly, the airport will begin this Spring to extend Industrial Drive southerly to Pettingill Road and then easterly to Harvey Road. Look for some temporary pavement and realignment of roadways in that area as we, and the airport, plan for the extended runway.

For the first time in the Town's history, commercial and industrial growth outpaced residential development. In addition to new businesses in the Harvey Road area, we can expect to see construction start soon a new Home Depot off Rt. 102 and Hannaford Brothers have started the process leading to Planning Board approval for a new supermarket to be constructed off Palmer Drive with access to Gilcreast Road as well. Finally, construction has begun on the AES Granite Ridge electric generation facility located a mile or more south of the Manchester Airport. While we need to exercise due diligence to ensure that the plant and the associated natural gas pipelines do not negatively impact our environment, we need to recognize that this facility, destined to become our largest taxpayer, can also offer other resources to the community at large as well as to businesses in closer proximity.

TOWN MANAGER'S REPORT (Cont'd)

What's ahead for 2001? More of the same along with construction of recreational facilities off West Road, planning for a much needed new facility for the Police Department and the acquisition of land for building a new South Fire Station. Please stay tuned!

Respectfully submitted,

Richard M. Plante
Town Manager

WELFARE DEPARTMENT

The Welfare Department provides short term financial and non-financial assistance to needy Londonderry residents in accordance with State laws and local guidelines. Annual financial contributions are also granted to non-profit organizations that serve residents in need of different types of social and medical services.

During 2000, the Department granted financial assistance to eighty six (86) individuals and/or families and assisted with the coordination and distribution of over one hundred (100) Thanksgiving and Christmas baskets.

Applications for general assistance are available at the Town Offices Monday - Friday from 8:30 AM to 5:00 PM. Applicants are required to schedule an appointment with the Welfare Director and be prepared to provide identification, birth certificate(s), medical information and verification of basic household expenditures and income.

Respectfully submitted,

Troy R. Brown
Welfare Director

Town of Londonderry, N.H.

Town Office Board, Committee and Commission Reports

BUDGET COMMITTEE REPORT

The Londonderry Budget Committee members are elected to three year staggered terms. The Committee advises the Town Council, the School Board and the Town of Londonderry.

This year the Committee recognized the community's need for expanded services from both the police and fire departments; however, the Committee recommended that the increase in the operating budget be limited to the increase in the Town's tax base due to new construction. This approach attempts to match incremental costs and revenue. Taking the Committee's recommendation under advisement, the Town Council's proposed budget provides additional services to the community at a "real" tax rate and cost per property commensurate with last year's rate and cost.

The Budget Committee attempts to balance the goal of stabilizing and/or reducing taxes against the need for services in a rapidly growing Londonderry community. The Committee continues to support long-range capital improvement project planning and communication and coordination between the Schools and Town Government. The Committee supports Town Government's efforts to expand the tax base by attracting environmentally friendly businesses to Londonderry while limiting housing growth through a growth ordinance and assessing impact fees on new development.

Community members interested in the Budget Committee are invited to attend meetings on the fourth Thursday of each month at 7:30 pm at the Northgate Management Meeting Room adjacent to the Londonderry Town Offices.

CONSERVATION COMMISSION

2000 was a busy year for the Londonderry Conservation Commission. Our major efforts continued to include the review of applications for state wetlands permits, the management of Town conservation land and Town forests, and the effort to preserve open space in Londonderry.

In an advisory capacity, the Commission investigated dredge and fill applications for comment to the state. This included discussions of the plans, possibly a site walk, and a letter of comment to the Wetlands Bureau. In this process, we work to try to protect sensitive areas by means of conservation easements or buffer zones. Working with home Depot, we were able to develop a more environmentally sound approach to their plan by requesting that they move a stream rather than culvert it under the parking lot. While there were only 6 dredge and fill applications this year, we reviewed over 60 plans in the Planning Department's design review process with regard to wetland and conservation issues. In addition, we dealt with several complaints regarding wetlands issues and oversaw a project involving the restoration of a wetland site that was altered without permission.

The Commission is charged with the responsibility of managing the Town's conservation land. Both the Musquash Conservation Area and the Kendall Pond Conservation Area are managed as Tree Farms in the American Tree Farm System. This year both properties were inspected and have been recertified as Tree Farms through 2005. The Commission worked with our Town Forester, Charles Moreno on both properties. A forest improvement harvest was conducted in the Kendall Pond Area. A net profit of $16,301.80 was placed in the Conservation Trust Fund. Mr. Moreno also began marking boundaries in the Musquash as the beginning of updating our Musquash Forest Management plan.

The Commission meets at 7:30 PM on the second and fourth Tuesdays of each month in the small conference room in Town Hall. We encourage anyone who is interested to attend our meetings and take part in our activities.

CULTURAL AFFAIRS COMMITTEE

The year 2000 was the inaugural year for the Cultural Affairs Committee. All members, along with the help of those attending public forums and the guidance of the Commissioner of the NH Department of Cultural Resources Van McLeod, worked to define our statement of direction. We then prioritized our goals and strategies for the next twelve months.

Vision: Believing that our cultural resources are essential for nurturing lifelong learning, building strong relationships and promoting civic responsibility, we envision a community in which we participate in and support our cultural resources as a valued part of our everyday lives. **Mission**: to enrich Londonderry's quality of life through our cultural resources. **Our goals are threefold**: First, to promote the value of our cultural resources through partnerships demonstrating the value of Londonderry's cultural resources to our social, educational, economic and environmental well being, and another, increasing community involvement. Our second goal is to encourage cultural education as part of lifelong learning by increasing understanding and awareness through education. And finally, our third goal is to enhance the awareness and advancement of our cultural resources through marketing within the community, the State and beyond.

As we worked to define the Committee, we were joined by many community members who helped to promote an appreciation for our local cultural resources, and who gave voice to creative expression and fostered a sense of community. Our booth at Olde Home Days provided a forum for cultural information and demonstrations and launched the Cultural Interest Survey authored by Don Tongue, assisted by Ken Hajjar and Eric Meyer. In an ongoing series of articles in the ***Londonderry Times***, member Debbie Curtin has highlighted cultural events on a monthly basis. Articles on cultural adventures and events have greatly enhanced awareness of cultural resources available within New Hampshire. We were pleased to be a part of the Cultural Arts Video sponsored by Paul Donehue of the Front Room Gallery and produced by Londonderry residents Jeremy Cleek and Ani Pandit of ***Take Five Productions***. It was with great pleasure that we were reminded of the generous nature of Londonderry's residents who opened their home to cast members of ***Up With People*** as we sponsored a Thanksgiving weekend of concerts and workshops thanks to the efforts of Londonderry resident Dan Gore. Also in November, the Cultural Arts Center subcommittee (Don Tongue, Dan Gore, and Sheila Sheehan) joined the Londonderry High School Student Council to assess the possibility of building a center. We applaud the vision, tenacity and maturity of LHS Student Council President Eric Meyer for his work on this project.

Work will continue over the next year by our Cultural Directory subcommittee (Karen Lyons, Dick Matckie, Wayne Kurtzman and Jackie Thesse) to have a web site directory of local artisans, educators, authors and cultural resources available via a link to the Town's website, www.Londonderry.org. Our third subcommittee, Community Liaison Outreach, (Joy O'Connor, Paul Donehue, Karen Lyons and Mark Oswald), will meet with fellow civic groups to consider the Town's vision of "community". Our goal is to work in concert to maximize the efforts and enthusiasm of Londonderry's cultural and business organizations.

Our gratitude is extended to the community for its contributions to our exploration of Londonderry's cultural resources and the recognition of their impact on community well being. We invite you to join our meetings held the first Thursday of each month at 7:00 PM in the Large Conference Room of the Town offices. Contact our hotline at 432-1100 Ext. 150. We welcome your thoughts and comments.

Respectfully submitted,

Joy Dean O'Connor, Chair	Karen Lyons	Councilor Mark Oswald
Debbie Curtin, V. Chair	Dick Matckie	Don Tongue
Sheila Sheehan, Secretary		

ECONOMIC DEVELOPMENT COMMITTEE

Despite the low activity level of the Economic Development Committee, the Town experienced significant commercial and industrial growth. Over 600,000 SF of new commercial and industrial building space was added in 2000. This translate to an increased tax base for property owners and job opportunities for Londonderry residents.

The industrial area south of the airport holds significant opportunities for job creation and commercial and industrial development. The area consist of approximately 800 acres of industrial land. It one of the largest contiguous pieces of industrial land in the state. The Department of Transportation proposes to construct an airport access road from Rt. 3 in Bedford across the Merrimack River and into the Manchester Airport. A portion of the access road will encompass the northwest section of Londonderry. The Planning & Economic Development Department is actively working on the planning issues involved with constructing a roadway connecting onto the state access road and the ultimate development of this area.

We continue to have positive working relationships with many area economic groups which we hope will continue to prove beneficial. Some of these groups are: Londonderry Housing & Redevelopment Authority (LHRA), Rockingham Economic Development Corp. (REDC) and the Londonderry Business Council of the Greater Manchester Chamber of Commerce.

ELDER AFFAIRS COMMITTEE

The Elder Affairs Committee was formed to focus on understanding the needs of the senior population of Londonderry. The Committee meets the first Tuesday of the month at 6:30 PM in the Small Conference Room of the Town Offices. The public is welcomed and encouraged to attend and contribute.

The majority of our time this past year was spent on putting together a survey to understand what the seniors in Londonderry require from its Town government. We were fortunate enough to get more than 300 returned surveys. Based upon the results of the survey, the overwhelming priority expressed was to do something about the property tax burden put on our seniors. To that end, the Committee put a good amount of time updating the Elderly Property Tax Exemption. With the help of Assessor Karen Marchant, we gathered information from neighboring communities and modernized the exemption in hopes of broadening the number of people who can take advantage of it. We would strongly encourage you to contact the Assessor's office to see if you are eligible to take advantage of this exemption.

In the coming year, the Elder Affairs Committee will devote its time to improving the quality of life for our seniors. Your ideas and energy toward this goal would be greatly appreciated.

HERITAGE COMMISSION

The purpose of the Commission is two-fold: it is a land-use board governing an Historic District, which includes the Town Common land, the Morrison House Museum, and the Grange #44. Also, as a Heritage Commission, chartered under State Statute, the Commission is granted new abilities to recognize and protect historical and cultural resources, compiled in a cultural resources survey conducted by the Commission.

The Heritage Commission is pleased to report that design criteria for commercial development have been recognized as an important part of site plan regulation revisions. Working with the Planning Board, the Heritage Commission continues to review architectural renderings for positive impact and complementary aesthetics during site plan submission. Developers are willing to cooperate with the recommendations of the Commission. Major projects this year that the Commission has influenced are: construction of Home Depot on Route 102 and Osco Drug at the Crossroads Mall.

The Heritage Commission is working with the Conservation commission to develop submissions for the Land and Community Heritage funding which received approval by the State. Working closely with the NH Division of Historic Resources, the Commission continues to be active in preservation issues and supportive of preservation techniques that enhance the cultural and aesthetic qualities of Londonderry.

Regular meetings are held every three months on the first Tuesday. New membership is always welcomed.

Clark Blacksmith Shop

HISTORICAL SOCIETY

2000 was a year of substantial progress for the Londonderry Historical Society's Restoration Projects. At the Town Meeting in March, the residents of Londonderry overwhelmingly voted for the $31,000 to help restore the 1859 Parmenter Barn. In the summer and fall three different contractors were used to reassemble the frame, to provide major reinforcement and structural support and to begin new siding and new roofing. By the Spring of 2001 the barn will be fully enclosed, but still requires restoration of the original panel doors, addition of the original transoms and windows, electricity, new flooring and eventually a cupola for the roof. The Society will undertake major fundraising projects to help complete these tasks.

After the Clark Blacksmith Shop blew down in a December windstorm, it was reassembled and reinforced in the Spring. Fortunately, the Society had insured the blacksmith shop only two weeks before the windstorm and was fully reimbursed for the cost of reconstruction. The old building is now a fully restored example of a 19th century blacksmith shop and will eventually hold a collection of early tools and other artifacts.

The official opening of the Morrison House Museum was marked by a ribbon cutting ceremony in May. The occasion was attended by Town Councilors and by the Welch family who donated Morrison House to the Historical Society in 1989. At Olde Home Days, record numbers of visitors toured the Morrison House and were entertained by the stories of Melvin Watts, Town Historian.

The Historical Society thanks those residents and organizations of Londonderry who have given their support to ensure the preservation of Londonderry's past for future generations to enjoy. A special thanks goes to the Boys Scouts of Grange 44 for painting the outside of the Morrison House as the Eagle Project of one of their members. Meetings are held monthly May through November and all are welcome.

INTERNATIONAL EXCHANGE COMMITTEE

The Londonderry International Exchange Committee (LIEC) was formed in 1992 for the purpose of "developing cultural and other ties appropriate to a sister city relationship with the City of Vologda, Russia" as well as "any future established relationships". The resolution between Vologda and Londonderry states our: "... friendly ties contribute greatly to peace, friendship and mutual understanding".

LIEC is responsible for coordination and development of programs, communications, and fund raising activities that support international visits from our Russian Sister City. Since 1993, LIEC has hosted Russian visits from a girl's basketball team, a Children's Ballet, the Teremok Puppet Theater, a police delegation, and the Vologda Concert Chamber players. With every visit, LIEC strives to organize the best cultural exchange possible for all involved. Every group's visit includes trips around Londonderry to local businesses, schools, and town departments.

Currently, due to Russian economic conditions, it has been difficult for groups to pay for their airfare to the United States. In 2001, we will look into possibilities of finding sponsors to assist towards the airfare of a visiting group. This will include developing a publicity video with the assistance of Londonderry's Cable Television (CTV-20).

The Committee relies totally on donations, sponsors, and fund raising efforts. We are grateful to area families, organizations, and businesses who have donated so generously in the past. Anyone interested in any kind of involvement with our exchanges (you don't need to be a member) please contact the International Exchange Committee at Town Hall: (603) 432-1100 Ext. 163.

HOUSING & REDEVELOPMENT AUTHORITY

Redevelopment projects done by the LHRA will contribute over seven million dollars to the town of Londonderry in tax and fee income annually.

This year, the LHRA did its biggest and most complex redevelopment deal ever. The result will be substantial tax and fee income to the Town and thus a reduced property tax burden to all residents. By taking title to a five acre contaminated site from the Town, which acquired the property for back taxes, the LHRA was able to clean up the lot and negotiate a lease with Enterprise Rent-a-Car which will generate a high fee income level to the Town on an annual basis. The development will cost approximately one million dollars, which will be accomplished without using taxpayer money. A portion was funded with fire insurance money collected by the Town when the building onsite burned down, and the remaining major share came from the LHRA capital reserve fund. The LHRA will invest seven hundred thousand dollars on the project with all returns going directly to the Town. The unique legal character of the LHRA and its equally unique funding source of investment income made this project feasible. The LHRA anticipates two additional redevelopment projects to go into construction in 2001.

By way of background, the 1968 Londonderry Town Meeting, under RSAs 203, 204 and 205, established the LHRA and charged it with the mission of acquiring and redevelopment surplus land from the General Services Administration in the area of the Manchester Airport for the purpose of increasing the Town's industrial tax base.

The charter Commissioners attempted to borrow money to acquire the land as directed, but were unable to find a lender. By pledging their personal credit, they obtained a loan from a group of banks and began the effort, which continues today, of fostering redevelopment south of the Airport. The notes have been paid off and over $200 million in development, paying now over $6 million per year in taxes to the Town, has been added to the tax base.

Because continued industrial development in the Airport area is critical to the Town's income stream, the LHRA is continuing to seek authorization from the town Council to assist in this vital effort by requesting that its legal project area be expanded. This would enhance the Town's ability to attract new industry and guide unique projects through to completion.

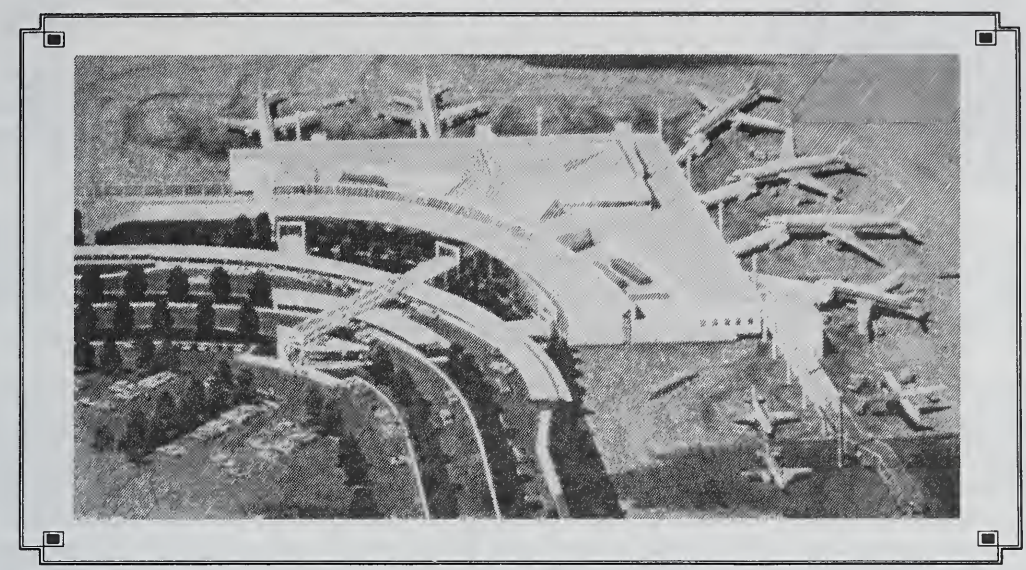
MANCHESTER AIRPORT AUTHORITY



Aerial Photo of the Terminal at the Manchester Airport in Londonderry, NH

In 1997, the City of Manchester implemented a change to its City Charter that redefined the role of all Boards, Authorities and Commissions as "advisory" to the department with which they are associated. Since that time, our capacity as members of the Manchester Airport Authority has been to serve as a conduit of information and advice between the Town of Londonderry and the Airport Director.

On behalf of the Manchester Airport Authority, we are proud to report that Manchester Airport had another successful year in 2000, continuing efforts to improve airline services and update and improve airport facilities and infrastructure. Year-end passenger activity totals surpassed the three million mark, with nearly 3.2 million passengers using Manchester Airport during the year. Air travelers continue to discover Manchester's easy access, competitive airfares, convenient jet service and inexpensive parking.

We would like to take this opportunity to acknowledge the tremendous support the airport receives from its neighbors, the local communities, and our state and federal officials. Manchester Airport is an important economic asset to the entire State of New Hampshire, creating jobs and increasing opportunities for everyone. In the Town of Londonderry, the airport represents hundreds of good paying jobs and millions of dollars in payroll, local expenditures and taxes each year.

The goal at Manchester Airport is to successfully meet the air transportation needs of the region while continuing to strike a balance between the development of facilities and infrastructure and the quality of life issues that are so important to the citizens of the Town of Londonderry.

Thank you for your continued support.

Respectfully submitted,

Michael R. Denton, Chairman and Londonderry Representative
Robert E. Carr, Londonderry Representative

PLANNING BOARD REPORT

During the course of 2000, the Planning Board's weekly agenda reflected the fact that Londonderry is a community which continues to grow. The number of subdivision plans reviewed by the Board were thirteen (13); it also reviewed thirty two (32) new site plans.

Some of the more prominent new projects reviewed and approved by the Board in 2000 include: the Home Depot currently starting site preparation on Rt. 102, the new the Ferrotec Industrial subdivision on Akira Way including the industrial buildings under construction for FCI and Insulectro, and Hannaford Brothers (currently being reviewed) on Hampton Drive, to name a few.

The Board also spent a fair amount of time in 2000 updating or revising various codes and ordinances. The Board approved changes to the R-III, multi-family zone ordinance, which was also adopted by the Town Council. The new section provides developers with greater flexibility in the design of multi-family projects, which preserves open space within the Town. The Board also worked closely with the Conservation Commission all year on a proposed new Wetlands Protection District. The proposed ordinance will provide buffers around wetlands in Town which are one-half acre or larger in size. The Board drew over 350 people to the Wetlands public hearing in September. The Board continues to work with the Conservation Commission and Planning Staff to develop these important environmental regulations. The Board anticipates another public hearing in mid 2001.

In June, the Town hired Tim Thompson as the new Assistant Town Planner. Tim fills a brand new position with the Town, and previously spent 3 years as a City Planner in Rochester, NH. Tim is not entirely new to the Planning Board, as he was an intern for former Director Peter Lowitt during the summer of 1996. Tim has been working as part of the Design Review Committee and has assisted in the development of ordinances and regulations since his arrival.

The Planning Board meets every Wednesday evening at 7:30 PM at the Town Offices complex in the Northgate Meeting Room, Suite 105. Legal notices describing upcoming meetings are published in the Friday edition of the Derry News. The public is always welcome to attend these meetings.

RECREATION COMMISSION

The Recreation Commission meets on the second Monday of each month at 7:30 PM at Town Hall. All Town residents are invited to attend and voice concerns or present ideas to help improve recreation in Londonderry. Residents are also urged to take advantage of the RECREATION HOTLINE, 437-2675, which provides up-to-date Recreation information.

Adult programs currently offered to Town residents are men's and co-ed softball, and volleyball, men's and women's basketball and indoor soccer. Programs available to the Town's youth are: basketball, softball, baseball, football, cheerleading, soccer and skiing. Also available is the Summer Playground Program, which operates at the Town's three elementary schools during the students' summer vacation.

It is hoped that Town residents avail themselves of the Nelson Road Field Complex, which includes two tennis courts, two illuminated basketball courts, a wonderful toddler playground, volleyball court, softball field and a multi-purpose field. The project to construct two new additional tennis courts and illuminate all four courts at the site will be completed during the spring.

The development of the West Road property into playing fields has been progressing much slower than anticipated. The Commission, with the assistance of Adm.Services Director Troy Brown, is working on a plan to complete the project, which will involve a collaborative effort between Town, volunteer groups and private efforts. Funding of the project will also be far most costly than initially anticipated.

The Commission is also working with a newly formed volunteer group in Town who is working to develop Bike Trails in an effort to connect neighborhoods and major areas in Town.

The Commission would like to thank the Londonderry School District for the use of their facilities for all of our indoor activities, and to the Field Maintenance for all their help and guidance. The Commission extends thanks to the countless number of people who constantly give of themselves for both the adult and youth recreation and sports activities. Year in and year out, these people show us that the spirit of volunteerism is alive and thriving in Londonderry.

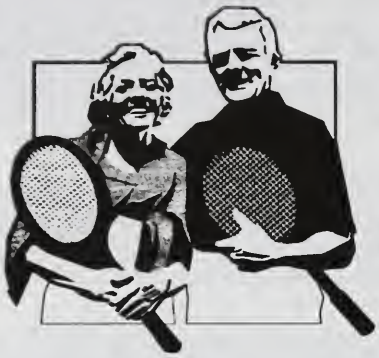
SENIOR CITIZEN'S CLUB

~~Londonderry Police Relief Assn~~



On July 8, 1996, the Londonderry Police Relief Association, in an attempt to assist the Senior citizens of our community, entered into an agreement with the Town of Londonderry to take over the maintenance and operation of the Senior Center, located at the Mayflower Grange Hall.

Upon termination of the agreement, the LPRA started renovations which included the painting of the interior and exterior of the building, and the refinishing of the interior floors. Since then, the LPRA has provided a home for the Seniors Club and their activities. They meet twice weekly for social times and have numerous health screenings. Christmas and penny sales are enjoyed by all. Dinners have been served by the LPRA and Rotary Club, just because we care.

The hall has been increased usage since 1996. We have and continue to provide, groups such as Boy ad Girl Scout organizations, the VFW, locally sponsored athletic teams and other Town organizations a place to meet. The hall is utilized just about every day of the week.

Since 1996, the hall has seen additional changes. New tables and chairs were put in along with air conditioning, and most recently a new front porch.

The Mayflower Grange is available for rental functions which assist us in continuing to care for our community. The LPRA is proud to be able to assist so many organizations in our Town.

Respectfully,

Frank Holdsworth
Patti Melcher
Co-Chair - LPRA Facilities Committee
Mark Deloria - President

SOUTHEASTERN N.H. HAZARDOUS MATERIALS MUTUAL AID DISTRICT

The Southeastern New Hampshire Hazardous Materials Mutual Aid District is organized as a regional solution to the hazardous materials response problem. The purpose of the district is to prepare our communities, regionally, for responses to hazardous materials incidents, both with training and equipment. The 14 communities that comprise the district are: Auburn, Atkinson, Chester, Danville, Derry, East Derry, Hampstead, Hooksett, Litchfield, Londonderry, Pelham, Plaistow, Salem, and Windham.

The District is managed by an Operations Committee, consisting of a Chief Officer from each member community, who carry out the day-to-day business of the organization; and a Board of Directors, consisting of an elected or appointed member of municipal government in each member community, who provide oversight and fiscal management. The District has the highest level of response available for hazmat, Level "A".

District resources include two response trailers, equipped with generators, oil spill and decontamination equipment, chemical reference material, protective suits, and communications equipment. This year the District purchased a new response truck and trailer equipped for the team. The District trailers and truck are strategically located to respond to any community requesting them. An EMS Mass Casualty trailer is located in Londonderry, available for response to medical incidents involving a large number of patients.

The District's Level "A" Hazmat team, comprised of fire personnel from member communities, has responded to many incidents and received praise from regulatory agencies on the professionalism of it's operation. The team trains monthly, and is on-call to respond to member communities, to conduct research, advise the incident commander on control activities and safety, and fill incident command system staff positions. They also assist member communities with planning, since the District has been recognized as a regional Local Emergency Planning Committee, to comply with SARA Title III of the federal regulations governing hazardous materials. This allows the District to be eligible for Emergency Management Assistance funding.

This year the District participated in the national HazMat drill in Portsmouth, as well as a drill conducted with the US Army Civil Support Team and the Bureau of Alcohol, Tobacco, and Firearms. This drill focused on weapons of mass destruction, such as chemical or biological agents. The District has completed and filed with the state a regional emergency plan for such terrorist incidents.

Your fire department and local officials continue to make progress in providing the most cost effective manner of responding to a hazardous materials incident.

Respectfully Submitted,

For the Board of Directors	For the Operations Committee
Mr. Richard Plante	Chief Alan J. Sypek
Town Manager	Londonderry Fire Department
Chair, Board of Directors	Chair, Operations Committee

SOUTHERN NEW HAMPSHIRE PLANNING COMMISSION

The Southern New Hampshire Planning Commission has a wide range of services and resources available to help the dues-paying members deal with a variety of municipal issues. Technical assistance is provided by a professional staff whose expertise is, when necessary, supplemented by consultants who are selected for their specialized skills or services. Each year, with the approval of your appointed representatives, the Commission staff designs and carries out programs of area-wide significance that are mandated under New Hampshire and federal laws or regulations, as well as local or site-specific projects which would pertain more exclusively to your community.

Technical assistance is provided in a professional and timely manner by staff at the request of your Director of Planning, Town Manager. The Commission conducts planning studies and carries out projects that are of common interest and benefit to all member communities, keeps your officials apprised of changes in planning and land use regulations and in conjunction with the New Hampshire Municipal Association (NHMA) offers training workshops for Planning and Zoning Board members on an annual basis.

Services that were performed for the Town of Londonderry during the past year are as follows:

1. Co-sponsored the Municipal Law Lecture Series. These meetings were attended by Londonderry officials.
2. Conducted traffic counts at forty four (44) locations in the Town of Londonderry. Data was forwarded to the town's Planning Director.
3. Provided a copy of the "Housing Needs Assessment for the SNHPC Region," prepared by the Commission staff.
4. Provided a copy of the Regional Transportation Plan update (August 2000) and the TIP FY 2001-2003 to the Planning Director. A copy f this document has also been forwarded to the town's library.
5. Prepared a composite tax map in the scale of 1" = 2,000' and a map of Wheeler Pond. These were prepared at the request of the town's Conservation Commission.
6. At the request of the town, the NH Route 28 Corridor Study in Londonderry is being updated.

Londonderry's representative to the Commission: William P. Boucher, with Anita Davidson, and Edgar LaPointe having resigned in 2000.

Respectfully submitted,

Moni N. Sharma
Executive Director - SNHPC

TRAFFIC SAFETY COMMITTEE

The Traffic Safety Committee charter is to address the problems of the Town citizenry when submitted to the Committee. The Committee uses Regulation 94-1, which was adopted by Town Meeting 1995 as a guide to uniform enforcement. This regulation employs the standards of the US Department of Transportation Federal Highways Administration ***(MUTCD), Manual on Uniform Traffic Control Devices for Streets and Highways*** (as amended), the New Hampshire Department of Transportation Publication "Traffic Control Standards, Statutes, and Policies" (as amended) and New Hampshire's RSA 259:125. The Town's inventory of standard devices are installed under this Regulation.

The Traffic Safety Committee experienced an increased amount of speeding complains and requests for more instructional signs having to do with speeding, dangerous intersections, and no parking. The requests for "No Parking" and "Stop" signs and lower speed limits, as well as requests for speed traps in several neighborhoods, are still increasing. All complaints were scheduled and the individuals and petitioners were all notified of time to speak before the Committee; with most of the problems resolved satisfactorily. The Committee's use of a formalized process under Traffic Ordinance 95.001 for bringing all issues and requests of citizens before the Committee was adopted in 1995 and continues to meet the needs of the Town.

Copies of the meeting minutes of the past year are available for information and viewing at the Town Manager's office. This past year's goals will overlap into 2001 as the Town continues to experience growth. Meetings of the Committee are held quarterly, the first Monday of the month, beginning in January and are called to order at 6:00 PM in the Large Conference Room, second floor of the Town Office.

Finally, the Committee gratefully acknowledges the support and professional assistance provided by the Town Council, Executive Secretary, Police Department Executive Secretary, Police and Fire Chiefs, Town Planner, Town Manager, Administrative Services Director. In addition, the Committee would like to thank the Highway Department personnel for the effort they put forth in helping the Committee solve some of the dangerous traffic situations this past year.

WEBSITE DEVELOPMENT COMMITTEE

On January 29, 2001, the residents of Londonderry were introduced to a new, powerful tool at their fingertips and on their computer monitors www.londonderry.org - the redesigned and upgraded Town Website. The site launch was the six month effort of the Londonderry Website Committee, chartered by the Town Council and a local business, Web-Sites.com.

Londonderry.org is comprised of three sections: Town, Schools and Public Library. It is the goal of the Committee to provide a resource of community information and services to residents, businesses and future tenants, and to promote Londonderry throughout New Hampshire and the nation as an innovative and technologically progressive community.

In September 2000, the Town Council charged the Londonderry Website Committee to oversee the proper facilitation of the update and maintenance of the Town's website. The 2000/01 Committee is comprised of seven members representing the School Board, Town Council, Leach Library, Town Staff, School Staff, Business Council and a citizen member at large.

The Committee partnered with Web-Sites.com to design and implement a database-driven technology which permits volunteers and Town employees maintenance access to specific pages on the site. This single innovation breaks down the huge job of keeping the site updated into small, manageable segments.

In its first phase, the site contains nearly 100 pages, some requiring monthly or weekly updates. Londonderry High School students, under the supervision of Web-Sites.com, are designing and maintaining many of the School section pages. The second phase is currently in the planning stage, and will include additional pages and site capabilities to make life in Londonderry a little more convenient.

NUTFIELD COMMUNITY YMCA

Nutfield Community YMCA
206 Rockingham Road
Londonderry, NH 03053
Serving Greater Derry And Londonderry

The Nutfield Community YMCA recently celebrated its "first" year anniversary at our 1,000 SF renovated facility located at 206 Rockingham Road in Londonderry. Although having small beginnings, expansion plans are hopeful of including a gymnasium, teen center and aquatic center.

The facility has received increasing enrollment in the before- and after-school child care programs, as well as pre-school, adult and young classes and programs. Family nights continue to grow in popularity.

Our popular "Summer Camp" is a huge success with children enjoying days filled with swimming, crafts, games and field trips galore. The YMCA recently opened its doors to teens, focusing on Teen Leader Corps and Teen Nights. These successful programs allow for character development and positive teen interaction.

In the Fall of 2001, a kindergarten morning and afternoon, extended day-child care program will be offered to compliment Londonderry's new public Kindergarten program.

The YMCA is committed to creating a place where all are welcome, building a healthy spirit, mind, and body in individuals and families by instilling the values of caring, honesty, respect and responsibility through our practices and programs. As always, the Nutfield YMCA needs citizens who are interested in volunteering on the Advisory Board and several committees.

The Nutfield "Y" welcomes you and your family to tour our facility and become YMCA members. Call 437-YMCA.

Respectfully submitted,

Hal Jordan
YMCA President

ZONING BOARD OF ADJUSTMENT

The Zoning Board of Adjustment meets at the Town Office complex on the third Tuesday of each month in the Northgate Management Conference Room, 50 Nashua Road, Suite 105. Applications for hearings must be completed by the applicant/owner of said property along with Zoning Officer/Building Inspector and submitted to the Zoning Board of Adjustment (ZBA) Secretary by 4:30 PM on the third Friday of each month prior to the meeting. All residents are encouraged to attend the monthly meeting and deliberations.

The ZBA is required by RSA 31:66 and is mandatory whenever a town or city enacts a Zoning Ordinance. The Town Council is given the authority to make appointments to the ZBA and a new member is usually appointed for a three year term. State enabling statutes (RSA 31:72) give the ZBA the authority to act in four separate and distinctive categories:

1. **Relief from Administrative Decision-** To hear and decide appeals where it is alleged there is an error in any order, requirement, decision or determination made by any administrative official in the enforcement hereof or any ordinance thereto. The Board heard 5 such appeals in 2000, granting 3 of them.*

2. **Special Exception-** (Must be specified in Zoning Ordinance)To hear and decide special exceptions to the terms of the ordinance upon which such Board is required to pass under such ordinance. Eleven pecial Exceptions were requested in 2000, most of which were to operate Home Occupations, and seven (7) were granted (one was withdrawn).*

3. **Variances-** To authorize upon appeal in specific cases, such variances from terms of the ordinance as will not be contrary to the public interest, where owing to special conditions, literal enforcement of the provision of the ordinance will result in unnecessary hardship and so that the spirit of the ordinance shall be observed and substantial justice done.

   While the majority of cases come under the variance category, each case usually presents a unique set of circumstances. When considering a variance, the following conditions must be present:

   a. A hardship must exist which is inherent in the land in question and which is not shared in common with other parcels of land in the district;
   b. The spirit and intent of the ordinance must not be broken by granting the variance;
   c. The granting of the variance will not adversely effect other property in the district;
   d. Not to grant the variance would result in an injustice;
   e. The proposed use is not contrary to the spirit of the ordinance

   Variances were again the most common type of appeal by far brought before the Board of Adjustment. In 2000, thirty six (36) Variances were applied for and of those, twenty three (23) were granted (one was withdrawn).*

4. **Equitable Waiver of Dimensional Requirements** - Authorizes the ZBA to grant an equitable waiver from dimensional requirements to a property owner without the need of meeting the five conditions for a variance when a violation of a physical layout or dimensional requirement is discovered. The waiver can be granted only upon a finding that:
   a. The violation was not discovered in a timely fashion;
   b. The violation was a result of an honest mistake;
   c. The physical or dimensional violation does not constitute a nuisance or diminish property values; and
   d. That the cost of correcting the mistake outweighs any benefit to be gained.

   This section permits waivers only from physical layout, mathematical and dimensional requirements and not from use restrictions. Three Equitable Waivers was heard and granted by the Board in 2000.*

Many of the cases heard are presented as hardships. However, under the zoning law, a "hardship" is unrelated to the physical or economical condition of the owner, but related directly to a condition of the land, which prevents the owner from complying with the ordinances. Usually a peculiar characteristic of the land, such as shape, size, topography or other unique condition, may present a hardship for the particular piece of land in question. If the above characteristics are common and shared by other parcels in the district, the land in question is no longer unique and would not qualify under the hardship clause of the ordinance.

* - When cases are granted, they may or may not have restrictions attached to them by the Board members which are kept on file and made part of the minutes. There are also instances when those supporting or in opposition of a decided case may appeal that decision within 20 days of the deliberation date. This occurred four times during the year 2000 and each appeal was denied.
